Foreword

Moving FUNAAB to a Greater Future

I put up myself to lead this University with a commitment to ensure the evolution of the Federal University of Agriculture, Abeokuta (FUNAAB) as a world-class University. I am convinced that what made a University are the world-class standards that they commit themselves to. As the leadership of the University, we are committed to providing the visionary, disciplined and focused leadership that is anchored in strength, courage, fairness, transparency, purposefulness and aggression for results.

Our University is currently improving our teaching facilities and infrastructures to world-class standards. Quality is one of the values driving our programmes and activities. We are evolving new and unique programmes that will distinguish our graduates from those of other universities. We want products of this University to have skills and competencies that will make them to compete with any of their kind in other parts of the world.

Let me recognize the excellent foundation that has been laid for this University by our past Vice-Chancellors including Professors Nimbe Adedipe, Julius Okojie, Folorunso Adu, Ishola Adamson and Olufemi Balogun. These have made their marks. It is therefore our responsibilities to move this University forward to greater heights.

This annual report x-rays the developmental strides achieved by the University during the 2011/2012 period. The report gives an insight into the workings of the University, in terms of processes, policies and achievements in academic centres and other units. Giant strides in terms of physical development witnessed by the University in the last few years are of particular interest. There were about 200 projects initiated and completed between 2010 and 2012. The University maintains a very high standard of budgetary and financial discipline, as reflected in the financial reports. The current administration inherited 25 on-going projects by May, 2012 and by the end of the year, we have completed fifteen of them.

In the years to come, the University intends to leverage on the achievements of its past and current leaders to improve on the quality of teaching, research and services to the community. The University is making further efforts to ensure that classrooms, laboratories and lecturers meet international standards. In addition, the University's Centre for Internationalisation oversees the linkages with foreign institutions. At a not too distant future, the efforts of the University community would hopefully lead to advancements that will place the institution on a pedestal where it would be one of the leading international centres of learning.

I have no doubt that you would enjoy this publication as a compendium of information on FUNAAB.

Professor Oluola Bandele Oyewole
Vice-Chancellor

Note from the Editor

This 2011/2012 Edition of the University's Annual Report is the first one that would be published, though two earlier editions had been produced by the Academic Planning Unit. These editions, the 2009 and the 2010 versions were only posted on the University's website.

This edition has been carefully crafted together to showcase the University's activities in the year 2011/2012, especially in its quest to fulfill its tripodal mandate of teaching, research and extension services. The various segments of the University were x-rayed to highlight their outstanding activities and striking achievements during the year. The publication also showcased the giant strides achieved in the development of physical infrastructure of the University. Also, as the University celebrates its Twenty-Fifth Anniversary, it was pertinent to bring to the fore, men and women who had and are still contributing to the enviable heights the University has achieved. This informed the showcasing of the Chancellor, Pro-Chancellor,

past and present Vice Chancellors and members of Council and Management. Staff and student analysis was given prominence in according the human resources of the University their pride of place. Research activities and consequent

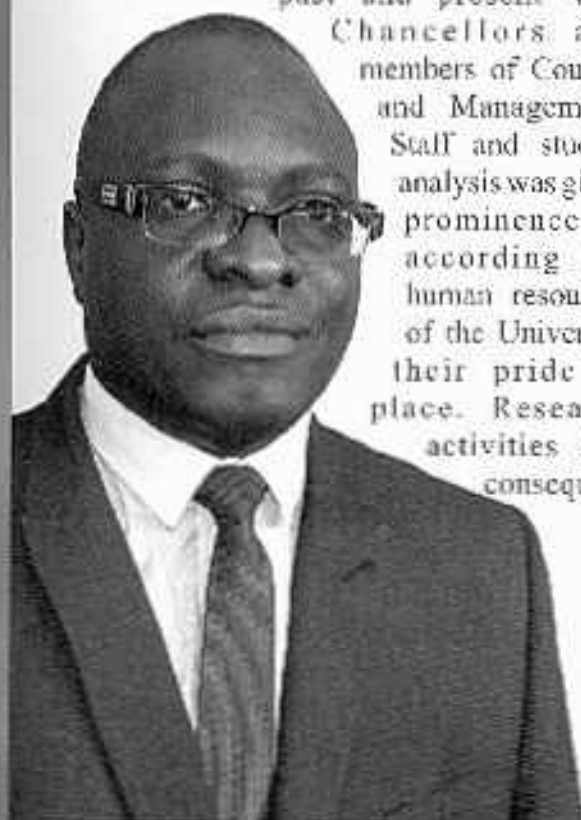

publications of the University which are important for the uplifting of the institution were also featured. The University, in the year under review hosted a lot of conferences, seminars and workshops, both international and local, which are featured in this publication. The Report would not be complete without focusing on the community services of the University. We have no doubt that this would be of interest to all stakeholders of the University, both internal and external.

We express our gratitude to the Vice Chancellor, Professor Olusola Bandele Oyewole, who was very passionate about the production of this publication. The unwavering interest shown by the Chief Executive of the University was unparalleled, without which the production would not have been possible. We are grateful to other members of University Management, Deans and Directors of Academic Centres and Service Units for their cooperation in providing the reports about developments in their various domains during the year under review. The proof reading of the manuscript was done by Professor (Mrs) Akeredolu-Ale of the Communication and General Studies Departments for which we are very grateful. We would like to mention Mr. A. E. Saba and Mr. A. A. Sogbala, both of the Directorate of Public Relations for the technical support they provided for this production.

We would also like to commend all the staff of the Academic Planning Unit who tirelessly collected, put together, arranged and re-arranged this publication. Their persistent prodding of the various units of the University to provide information produced the results we are presenting today.

We thank the Almighty God for granting us the grace to accomplish this production.

Prof. M. A. Waheed
Director, Academic Planning Unit

Knowledge for Development

UNIVERSITY'S VISION AND MISSION

OUR VISION:

To be a centre of excellence in knowledge generation for
global development and the sustenance of an
environmentally friendly society

OUR MISSION:

To build great future leaders and generate knowledge through research
and intellectually stimulating environment for teaching, learning
and community outreach towards sustainable development

FUNAAB ANTHEM

Beacon for Nigerian Masses

1. We have a vision great and clear
For the masses far and near
A school of farming, science and skill
To feed the land we'll till
Research, test and learning
For wisdom we're yearning

*FUNAAB, FUNAAB, glory of our day
Forward, upward, we shall ever stay
Beacons of our fatherland
To success we will sail
Labouring, toiling onward
we shall never fail.*

2. The nature's secret we'll find
As offering to mankind
We're aiming at sound scholarship
And academic leadership
We've all needed potentials
And basic essentials

*FUNAAB, FUNAAB, glory of our day
Forward, upward, we shall ever stay
Beacons of our fatherland
To success we will sail
Labouring, toiling onward
we shall never fail.*

UNIVERSITY CHANCELLOR

His Royal Majesty

Obi (Professor) Joseph Chike Edozien, C.F.R.

His Royal Majesty, Obi (Professor) Joseph Chike Edozien, C.F.R., was born on July 28, 1925 at Asaba. He started his primary education at the Catholic School, Warri in 1933 and completed it in 1937. Between 1938 and 1941, His Royal Majesty, Obi (Professor) Chike Edozien, was at the Christ the King College Onitsha, for his post primary education. He attended the Higher College, Yaba, Lagos in 1942 and the Achimota School, Accra, Gold Coast from 1942 to 1943.

His Royal Majesty was at the University College Dublin, Republic of Ireland, from 1944 to 1951, where he obtained in 1948 the B.Sc. Hons. Degree in Physiology. In 1958, he obtained the M.Sc. (NUI) in Physiology and in 1961, he bagged the M.B.B.Ch.B.A.O. (NUI) with honours, also from the famous University College, Dublin.

In 1954, Obi (Professor) Chike Edozien was admitted as a Member of the Royal Council of Physician, M.R.C.P. (Edinburgh). He became a Fellow of the Royal Council of Physician, F.R.C.P. (Edinburgh) in 1963. He was awarded the Honorary Doctorate Degree of Science, D.Sc. (Hon) of the University of Rio de Janeiro, Brazil. He became a Fellow of the Royal Council of Pathologist, F.R.C. Path (London) in 1967, and in 1980, he was made a Fellow of the Nigeria Academy of Science (F.A.S.).

His Royal Majesty, Obi (Professor) Joseph Chike Edozien, has had varied work experience beginning with that of Lecturer in Clinical Biochemistry, Middlesex Hospital Medical School, University of London (1951-1952), Lecturer in Chemical Pathology University College, Ibadan (1952-1957), Senior Lecturer in Chemical Pathology, University College, Ibadan (1957-1961).

He was a Professor of Chemical Pathology, University of Ibadan and Dean, Faculty of Medicine, University of Ibadan (1961-1967). He was a Special Adviser on Higher Education to the Military Governor of Midwest Region of Nigeria from 1966-1967. Between 1967 and 1971, he served as Professor of Nutrition, Massachusetts Institute of Technology (MIT) Cambridge, Mass, USA. He was also,

Professor and Chairman, Department of Nutrition, School of Public Health, University of North Carolina from 1971-1991. Between 1988-1991, His Royal Majesty was the Chairman, Governing Board, National Institute of Medical Research, Yaba, Lagos. From 1991 till the present day, he has been a Professor Emeritus of the University of North Carolina, Chapel Hill, NC, United States of America.

By the grace of the Almighty God, Professor Joseph Chike Edozien ascended the throne of his forefathers, when he was crowned as the Asagha of Asaba in 1991. He remains so till date.

A very versatile and brilliant academic, His Royal Majesty had served as the Chairman, Delta State Council of Traditional Rulers (1997-1999). He became a Justice of Peace (JP) in September, 1996, and was honoured with the distinguished award of the Commander of the Federal Republic (C.F.R.) in November, 2000.

He became the Chancellor of the Federal University of Agriculture, Abeokuta, in 2004. Prior to this he had served as the Chancellor of the University of Benin, Benin City, Edo State.

His Royal Majesty, Obi (Professor) Joseph Chike Edozien had served on several Advisory Committees of International agencies. Notable among which are the World Health Organization (WHO), Food and Agricultural Organisation (FAO), the United Nations Committee on the Application of Science and Technology for National Development as well as many other several Committee of American Government Agencies, concerned with Technical Assistance to developing countries, such as USIAD, etc.

He was the Chairman, Delta State Elders Forum that made recommendations on the resolution of the Warri crisis in 1997. He is currently, the Chairman of the Forum of Chancellors of Nigerian Universities.

He is happily married to Olori Modupe Edozien and the marriage is blessed with wonderful children.

CHAIRMAN OF COUNCIL

Chief Lawrence Ayinde Olakunle Osayemi, fca, mon

Chief Osayemi was born on June 7, 1945 at Abeokuta, where he had his primary and secondary education. He completed his secondary school education in 1962, with first division grade in the West African School Certificate.

He is a foremost accountant who is a member of many professional bodies. He became a member of the Chartered Institute of Cost Accountants, London (ICMA) in 1969 and an Associate of the same body (ACMA) in 1971. In 1975, he became an Associate of the Institute of Chartered Accountants of Nigeria (ICAN) and rose to become a Fellow of the Institute (FCA) in 1981. He has also been an Associate of the Nigerian Institute of Management (ANIM) since 2001.

As a person who is interested in having a broad based knowledge, Chief Ayinde Oluwatoyin Osayemi, at the peak of his professional career, enrolled as a student of Law in the University of Lagos and obtained a Bachelor of Law degree (LLB) in 2000. He became a Barrister at Law (BL) in 2001, having completed the Nigerian Law School programme. As if this was not enough, he went back to the University in 2006 to obtain a Master of Law Degree (LLM).

Apart from his academic pursuit, Chief Osayemi is a thorough breed professional who has undergone various advanced managerial training. In 1975, he took a course in Executive Management (LEP21) at the London Business School. He then proceeded to the Harvard Business School, Boston, Massachusetts, USA for Advanced Management Programme (AMP112) in 1993.

Chief Osayemi's professional career soared as the Factory Accountant with Phillips Nigeria Limited between 1970 and 1973 and Chief Accountant, Vegetable Oils Nigeria Limited from 1973 to 1976. He joined Thomas Wyatt Nigeria Plc in 1976 as Group Accountant, from where, he rose to become the Company's Commercial Manager between 1979 and 1981; Financial Director from 1981 to 1986 and Managing Director in 1986, a post he held until his retirement from the company in 2006. He is presently a Director of the company.

Chief L.A.O. Osayemi has over time, occupied several positions both in the private and public sectors. Since 1986 he has held various posts in the Manufacturers' Association of Nigeria (MAN) including the Chairman, Paper Sector, the Chairman, Apapa Branch, the Vice President, Lagos Zone and the National Treasurer. Also between 1986 and 2006, he was a Member of the Governing Council of the Nigeria Employers Consultative Forum and President, Paper and Paper Board Manufacturers and Converters Association. In the public sector, between 2000 and 2003, he was a Member of the Governing Council of the Nigerian Shippers Council. In 2003, he became a Member of the Board of Directors of the Bank of Industry, a position which he holds to date. He was also appointed a Member of the Technical Committee of the West African Monetary Zone in 2007 and also a Member of the Steering Committee of the Vision 20: 2020 in 2009. These two positions he also holds to date.

His diligence, profound sense of duty and utmost dedication to any assignment he handles culminated in his appointment as Pro-Chancellor and Chairman of Governing Council of the Federal University of Agriculture, Abeokuta, in June, 2009.

Chief L.A.O. Osayemi is happily married to Chief (Mrs) Oluwayemisi A. Osayemi (Iya Ewe of Isaga) and the two are blessed with children.

PAST AND PRESENT VICE - CHANCELLORS

1.1 VICE CHANCELLOR'S REMARKS

UNIVERSITY EDUCATION AND NATIONAL GROWTH

we are ensuring that excellent learning outcomes are achieved in our programme.

We are employing information communication Technology (ICT) to meet our current challenges of massification we are committed to prudent management of funds, and the continuous improvement of our human capacity to fulfill our vision and mission.

1.1.3 Access

A major challenge to university education in Nigeria is the access to university education. In 1993, the UNESCO Regional Office for Education in Africa presented a "beyond access agenda" which can be summarized to define access to university education as:

full and unfettered educational opportunity, devoid of all manners of exclusion, that which is crowned by successful learning and improved life chances for all classes of beneficiaries whose improved knowledge and skills, positive values and attitudes should contribute to reducing socio-economic inequities and poverty in the personal sense and the wider society.

1.1.1 Introduction

Universities are supposed to be agents of development. Developing countries like Nigeria therefore need to employ higher education to drive her development. Before now, many countries of Africa set up Universities to provide manpower for the government Civil service. Today, there is a paradigm change. Graduates of our Universities should not look to the government for white-collar jobs. The graduates of today need to be re-oriented to be able to create jobs, promote development and be an agent of change for a better society.

1.1.2 The Needs

Our Universities therefore need to equip our young people with the skills and competences that they need to meet the challenges of our new world drive by knowledge-economy. Today, it is the knowledge that you have, and not the natural resources, and what to do with knowledge that determines national and personal prosperity. It is therefore the responsibilities of universities to ensure the quality of our educational deliveries. At the Federal University of Agriculture, quality is one of our values. We are committed to the quality of our teachers, learning environment, our classrooms, and

This definition implies that access to university education is not just the physical entrance into university, but a meaningful access, which would include the quality of education provided in the universities and even the quality of the students to receive the education. The number of candidates who apply for admission into Nigerian universities through the Joint Admissions and Matriculations Board, JAMB, keeps increasing yearly, while the actual number admitted only slightly increase. According to figures from JAMB, in 2008, 957,452 candidates applied for admission into universities in Nigeria while only 120,181 actually got admitted, a very minute 12.55%. Also, in 2009, 149,965 candidates were admitted out of a total of 1,148,547 who applied for admissions that year, a very low 13.06%. Back home in FUNAAB, in 2011 a total of 20,865 candidates who obtained a minimum cut-off point of 180 marks and above in the Unified Tertiary Matriculation Examination, UTME, chose the

University as either first or second choice. However, the University could only offer 3,576 candidates provisional admissions; a not impressive 17.14%. The following year, 2012, only 3,637 candidates were offered provisional admissions from a pool of 48,709 candidates who had the required 180 marks and above in the UTME. This was only 7.47% admission. I dare postulate that this would be the trend in all the universities in the country. There are various reasons for this trend but the main ones are:

1. Inadequate funding of universities, which has led to inadequate provision of learning infrastructure and institutional space for accommodation of students, office space and lecture rooms resulting in ultimate inability to admit a substantial number of students.
2. The National Universities Commission, NUC, Carrying Capacity Policy, which stipulates the maximum student population for any university based on the available teaching - learning facilities. This policy limits the admission space available to each university.
3. Admission Quota System, which demarcates access to university according to merit, locality or catchment area, and educationally less developed areas. These criteria could put some prospective university students at disadvantage, as admission is not based strictly on merit.
4. The nexus between JAMB screening standards and University Post UTME Screening Standards, a controversial condition which affects admission into most Nigerian universities. Opponents of the Post-UTME screening see it as a major obstacle to prospective candidates' university admission. They are of the view that there are significant differences in terms of difficulty and syllabus content between the two screening bodies. However, universities suspect that the UTME is not a completely reliable yard stick to admit students, because over the years 'high fliers' in the UTME have been found wanting academically.

However, at FUNAAB, we constantly strive to improve on both the quality and number of our annual intake by constantly expanding our teaching and research facilities despite the scarcity of funds.

The Federal University of Agriculture, Abokuta in its tradition of excellence has continued to produce, through its endowed human and material resources, quality graduates who are well skilled and adequately furnished with the comprehensive information required of them to fit into their chosen professions. The following achievements are landmarks of the University:

- * Students' Enrolment increased significantly from 848 in 1988 to 11,624 in the 2011/2012 Session.
- * Graduate output was 17 at the first graduation in 1989 while in the 2010/2011 Session it increase to 1,355. In terms of quality of degree, only 1 graduate had first class in the 1989/1990 Session, but in the 2010/2011 Session, 39 students came out with first class degrees. Since inception to the end of the 2011/2012 Session, a total of 14,875 students had graduated from the University.
- * From an Academic Staff population of 36 in 1988, a population of 532 staff was recorded in 2012.
- * Academic Programmes in the University increased from 18 at inception to 27 in 2012. It should be noted that the 13 Agricultural departments as well as 6 Veterinary Medicine departments count as one programme each. This implies that there are 45 departments presently in the University.
- * All Academic Programmes in the University have been accredited by the National Universities Commission (NUC). Out of 27 programmes approved for the University, 19 have full accreditation status, 2 have interim status and 6 are yet to mature for accreditation. The 6 programmes have been visited for Resource Verification and all approved to commence academic activities. The Council for the Regulation of Engineering in Nigeria, COREN recently awarded Full Accreditation to all the four Engineering Programmes in the University.
- * The University made history by recording a score of 76.5%, earning a seven year full accreditation status from the first Institutional Accreditation exercise carried out by the NUC.
- * In the same vein, in the World Universities Web Ranking, FUNNAB was rated 2nd in Nigeria, 35th in Africa in January, 2012 as

against its ranking of 7th in Nigeria and 60th in Africa in July, 2011.

Several lecture theatres equipped with multimedia facilities have been built and are used as central facilities for teaching students. A recent addition is the 2000 seater lecture theatre, while a 2500 seater theatre is almost completed.

To enhance teaching and research, a new building complex was recently constructed for the College of Food Science and Human Ecology while a Phase II complex was completed for the College of Environmental Resources Management.

12 BRIEF HISTORY OF THE UNIVERSITY

The Federal University of Agriculture, Abeokuta is one of the three specialized Universities of Agriculture in Nigeria. It was established by the Federal Government in January, 1988, its foundation day being the 28th of January, 1988. The establishment of the Universities of Agriculture was an entirely new concept for promoting agricultural education and services for agricultural development and attainment of self-sufficiency in food and fibre in Nigeria.

The Federal University of Agriculture, Abeokuta started at its mini campus in Isale-Igbehin, in the centre of Abeokuta, the capital of Ogun State. The University moved in October, 1995 to its permanent site, which is located next to the Ogun-Osun River Basin Development Authority (OORBDA), off the Abeokuta-Ibadan road in the North-Eastern end of the city. The University started with 5 Colleges and 20 Academic Departments.

The pioneer Vice-Chancellor was Professor Nurudeen Olorunnimbe Adedipe, a professor of Plant Physiology who assumed duty as Vice-Chancellor on the foundation day. Professor N. O. Adedipe was succeeded by Professor Julius Amobi Okojie, a professor of Forest Management & Biometrics. Professor J. A. Okojie is currently the Executive Secretary, National Universities Commission, Abuja. The exit of Professor J. A. Okojie as Vice-Chancellor of FUNAAB brought in Professor Isaac Folorunsho Adu, a successful

professor of Small Ruminant Production who came into office in September 2001. A short interregnum brought in an Acting Vice-Chancellor in person of Professor Ishola Adamson, a Professor of Biochemistry between August, 2006 and May, 2007. The immediate past Vice-Chancellor, Professor Oluwafemi Olaiya Balogun, a professor of Animal Biochemistry and Nutrition was appointed the fourth Vice-Chancellor on 24th May, 2007 and his tenure witnessed a remarkable leap in terms of infrastructural development in the University. Presently, the Vice-Chancellor of the University is Professor Olusola Bandele Oyewole, a seasoned professor of Food Science, assumed duty as the fifth substantive Vice-Chancellor of this great University on 24th May, 2012. The University has since his assumption in office witnessed qualitative leadership, great drive towards making the institution a world class university in addition to unperturbed peace and tranquillity. These great icons created indelible marks on the face of this unique institution.

The University had from its inception consistently witnessed tremendous and remarkable growth and development under its past and present Vice-Chancellors who have immeasurably contributed to setting the institution on a landmark of success. In 2002, the University won its first major award by being adjudged the best overall University in Nigeria in terms of organisation and quality of programmes. The University won the best specialized University award and the then Vice-Chancellor, Professor I. E. Adu won the best Vice-Chancellor award in Nigeria. The University in addition won the maiden edition of research fair organised by the National Universities Commission (NUC) in 2004.

The Federal University of Agriculture, Abeokuta in its tradition of excellence has continued to produce, through its endowed human and material resources quality graduates who are well skilled and adequately furnished with the comprehensive information required for engaging in economic agricultural production. To date, the University has produced a total number of 14,875 graduates. Presently, there are 9 Colleges in the University and 45 Academic Departments.

2.0 ACADEMIC MATTERS

2.1 SENATE ACTIVITIES

The Senate of the Federal University of Agriculture, Abeokuta is charged with the onerous responsibility of superintending over all academics matters. In doing this, the Senate which is under the Chairmanship of the Vice-chancellor, oversees and ensures that the tripodal mandate of the University which are: Teaching, Research and Extension Services, are implemented in a sustainable manner.

In pursuant of this, the Senate at its various statutory and special meetings held during the review year approved the following academic activities for the University as listed in Table 1.

Table 1: Some of Senate Activities during the 2011/2012 Academic Session

S/N	ACTIVITY	DATE
1	The Appointment of two new Deputy Vice-Chancellors: i. Prof. T. A. Arowolo (Academic) ii. Prof. F. K. Salako (Development)	15 th September, 2011 (Special Senate)
2	The naming of new office complex as UNITY BUILDING COMPLEX	16th February, 2012 (186th)
3	The Award of the "Best University of Agriculture in Africa" to FUNAAB at the 1st Malinal Education Excellence Awards organized by the Africa-India Partnership held in Conjunction with the World Education Congress and Asian Confederation of Business	16th February, (186th) 2012
4	The name of 2000 capacity lecture theatre as Professor Mahmood Yakubu lecture theatre	16th February, 2012 (186 th)
5	The Award of Honorary Doctorate Degrees (Honoris Causa) on Mrs. Obiageli Ezekwesili, Alhaji Sule Lamido and Chief Johnathan A. O. Olopade	20th March, 2012 (Special Senate)
6	Election of Senate Representatives on the Joints Council and Senate Selection Board : Professor A. M. Adunadola and Professor A. O. Dipeolu elected	16 th April, 2012 (Special Senate)
7	First Senate Meeting to be presided over by the 5th Vice-Chancellor, Professor Oluwola Bamidele Oyewole	20th June, (188 th) 2012
8	The review of Penalties for various offences	20th June, (188 th) 2012
9	Conditions for appointment of External Examiners	20th June, (188 th) 2012
10	Restoration of Graduate Assistant Position	26th July, (189 th) 2012

**The Vice-Chancellor, Professor Olusola Bandele Oyewole
Presenting his Mission and Vision to Senate**

2.2 ADMISSION EXERCISE

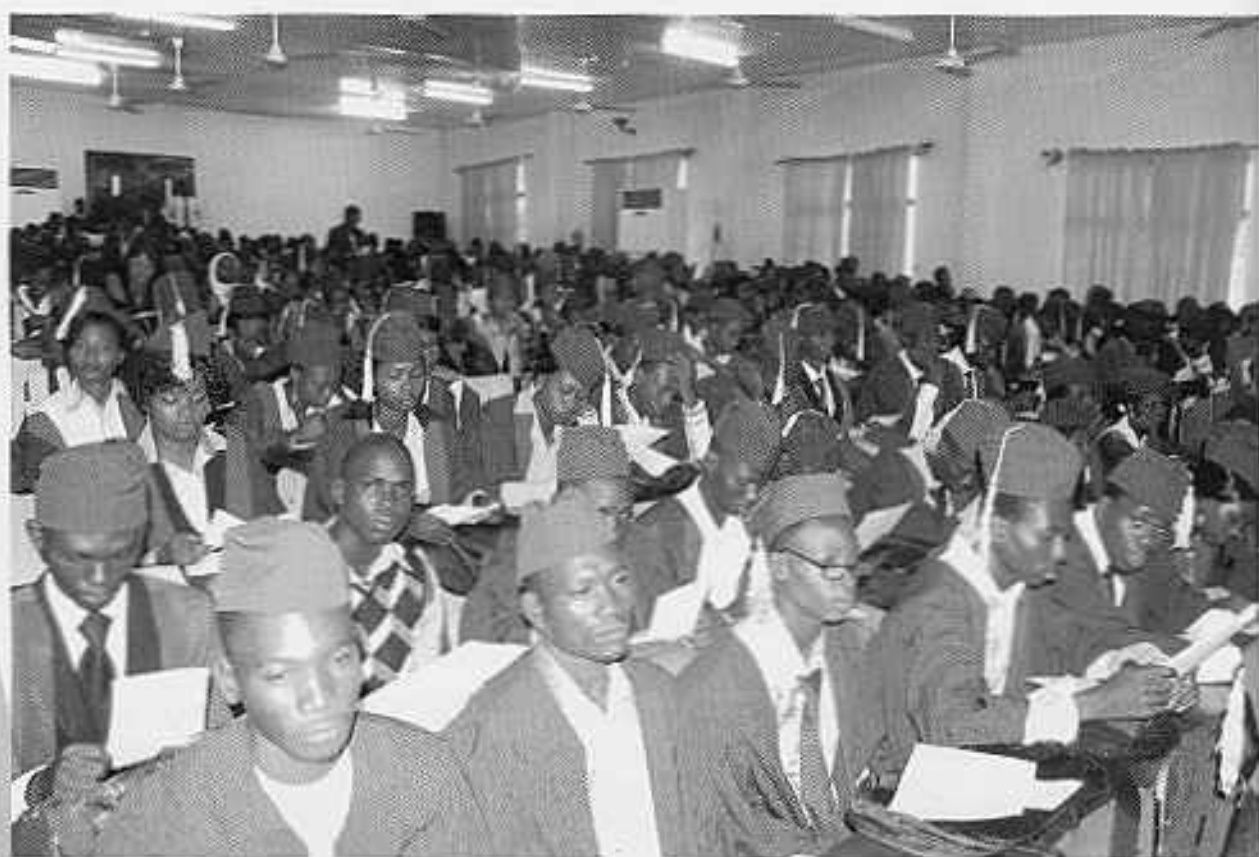

Admission process for the undergraduate programmes was conducted in line with the regulations of the Joint Admission and Matriculation Board (JAMB) that candidates that have minimum scores in the Universal Tertiary Matriculation Examination (UTME) be given opportunity to be screened for admission. Computer Based Test was used for the Post Universal Tertiary Matriculation Examination (PUTME). Scores of candidates in the UTME, PUTME and the aggregated results in the Secondary School Certificate Examination (SSCE) in the proportion 50, 30 and 20% respectively were used to determine admission and placements. The National Universities Commission (NUC) approved carrying capacity and National guidelines for admission viz: 45% on merit, 35% catchment areas and 20% for the Education Less Disadvantage States comprising all the Northern States, Cross River State, Ebonyi and Bayelsa State, were complied with. The postgraduate programmes admission was done in conformity with the approved regulations governing postgraduate school.

2.3 STUDENT ENROLMENT

Table 2 shows the number of candidates that chose FUNAAB as their first choice, the NUC quota and the number of candidates that were offered admission. The University admitted less than NUC admission quota for the period under review.

2.4 ACCREDITATION

There are 27 programmes which is equivalent to 45 departments in the University, out of which one is a service department, and seven new programmes. The NUC had conducted the resource verification for the new programmes while their accreditation will be statutorily conducted when the students in the programmes get to the higher level.

All degree awarding programmes in the University have NUC *full accreditation status* with the exception of Civil Engineering and Electrical/Electronic Engineering with *interim accreditation status* and these two programmes are due for the NUC re-accreditation in 2012. All the four programmes in the College of Engineering were visited during the review year by the Council for the Regulation of Engineering in Nigeria (COREN) and were all awarded Full Accreditation Status. Table 5 and Figure 2 show the NUC accreditation status of all the programmes in the University.

2.5 EXAMINATIONS

The semester examinations are taken with all seriousness in the University towards the success of which some Units/Centres/Departments play significant roles as highlighted below:

- i. Time-Table and Examination Committee, TIMTEC: Prepared the Time-Table, Invigilation Roster, allocation of venues for essay and computer based examinations, organised and coordinated invigilation of examination. The Committee also attended to any emergency during examination.
- ii. Academic Planning Unit, APU: Distributed examination materials like envelopes, mark sheets, attendance sheets, risograph consumables, etc to the departments. The Unit also determined the quantum of funds needed for examinations and helped in their allocation to all departments in University.
- iii. Environmental Management Unit, EMU: Provided adequate security of lives and properties, good sanitary conditions within and outside examination halls and assisted in immediate handling of cases of misconduct during examination.
- iv. Management Committee on Transportation, MANCOT: Effectively and efficiently provided buses for the conveyance of students during examination.
- v. Information and Communication Technology Resource Centre, ICTREC: Made students' academic data available for allocation of courses and students to examination venues and also provided technical assistance especially for e-examination.
- vi. Health Services: Provided Ambulances for the conveyances of students who fell sick in the examination hall to Health Centre for prompt medical attention and also treated those who took ill that were brought to Health Centre.

- vi. **Work and Service Department:** Ensured regular water and electric power supply to the examination venues. The Department also replaced and repaired electrical gadgets and other infrastructures during examination periods.
- vii. **University Management:** Provided necessary human resources, funds, logistics and infrastructures required for the success of the examination.

2.6 GRADUATE OUTPUT

Within the period under review, the University produced 1,681 graduates. 26 bagged first class honours degree, 541 second class upper, 881 with second class lower, 201 third class, 12 pass degree while 20 were unclassified degree (Pass). In 2011/2012 session, the University turned out 36 Ph.D, 124 Masters degree and 37 Postgraduate Diploma in various disciplines. The breakdown of the degree awarded is as presented in the tables below.

Table 6: Graduate Output by Class of Degree from 2007/2008 to 2011/2012 Academic Sessions First Degree

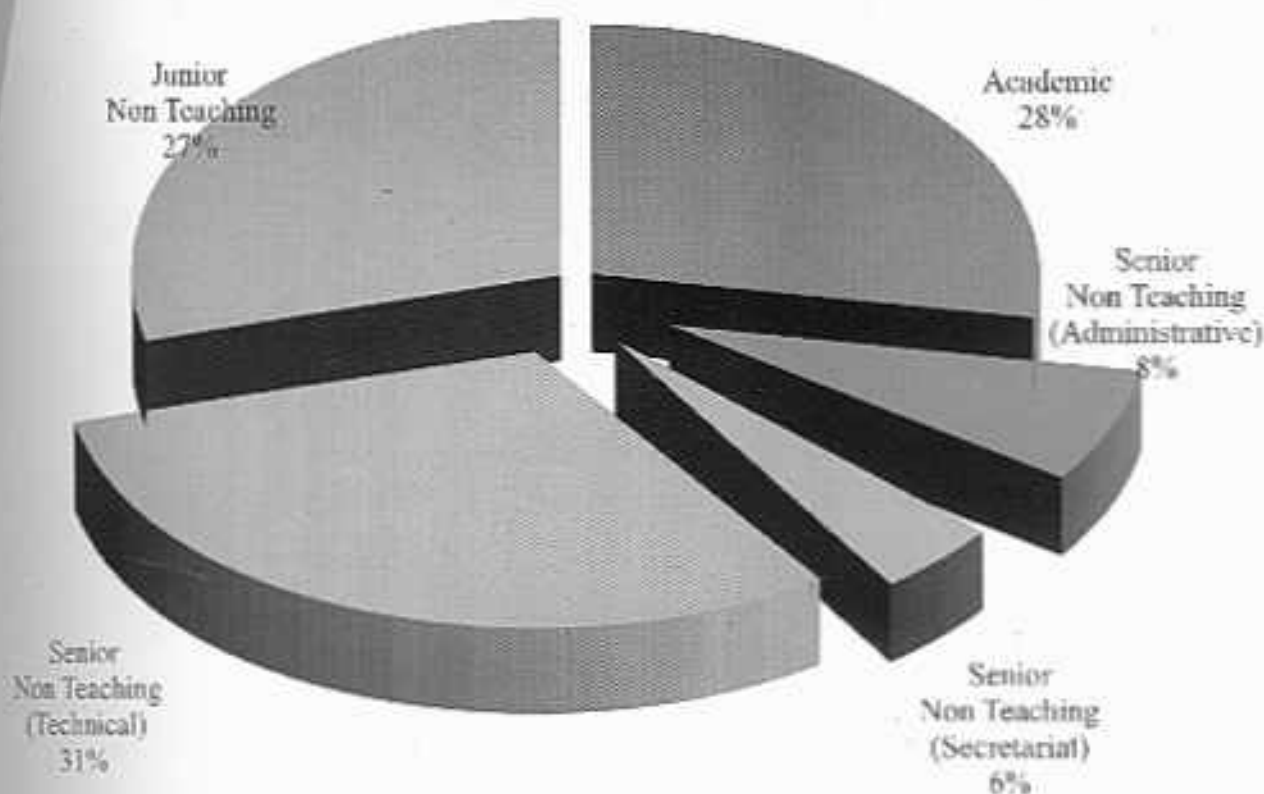

Figure 11: Staff by Category for 2011/2012 Academic Session

2.8 GENDER MAINSTREAMING

The University is gender sensitive by promoting an equitable, inclusive and effective participation of all and sundry in the development of our great University. All organs of decision making and all units are gender mainstreamed through appointments. Two out of the nine Deans of Colleges are females, six females Head of Departments while three are Directors of Centres, which is in line with the United Nations minimum female to male ratio of 25:75.

All categories of academic, non-academic and students leadership understand and promote gender sensitivity without compromising standard through the support of a responsive and supportive administration.

Table 8: Student Gender Picture

Programme	Male	Female	Total
Sub-Degree	792 (58%)	564 (42%)	1,356
Undergraduate	7,279 (63%)	4,345 (37%)	11,624
Postgraduate	678 (68%)	325 (32%)	1,003
Total	8,749 (63%)	5,234 (37%)	13,983

Table 9: Staff Gender Picture

Staff	Male	Female	Total
Academic Staff	389 (73%)	143 (27%)	532
Senior Non-Teaching	487 (56%)	379 (44%)	866
Junior	341 (66%)	179 (34%)	520
Total	1,217 (63%)	701 (37%)	1,918

2.9 QUALITY ASSURANCE

The vision of the Federal University Agriculture, Abokuta is to evolve as a foremost institution in the triad of teaching, research and extension by attracting, managing and retaining appropriate human and material resources for the pursuit of the desired creative, imaginative and innovative change for sustainable agriculture and rural development in Nigeria.

To foster a culture of high quality assurance in all programmes, the University has developed a mechanism, a framework for a continuous quality management and control of which all the stakeholders have to align their activities with the University's vision and mission of excellence. Parts of the mechanism put in place are;

- * Admission to the University have been regulated over the years in line with the approved carrying capacity given by the National Universities Commission (NUC) and Joint Admission Matriculation Board (JAMB).
- * There is a Post Universities and Tertiary Matriculation Examination for those who picked the University either as first or second choice and scored a minimum requirement for the University Admission. The idea is to screen and audit the best of all the candidates. Furthermore, the University still conduct screening exercise to have one on one interaction with the candidates in our bid to bring the best not only academically but also morally.
- * The University follows, as a matter of policy the statutory requirements of establishing programmes before commencement. Resource verification is usually conducted and structures put in place before admitting students into new programmes.
- * The staff mix in all programmes was adjudged as one of the best in the country, about 80% of the departments are being headed by Professors. All the programmes in the University have full accreditation status except new ones that are statutorily due in few years time for accreditation because they are relatively new.
- * The Student-Teacher Ratio is modestly one of the best in the country. Our Veterinary Medicine has the ratio of 1:3 against the NUC requirement of 1:10. The Engineering College has the ratio of 1:10 against NUC requirement of 1:15. The University had been adjudged one of the best in Nigeria several times due to our quality and excellence.
- * The big lecture theatres have multimedia projectors, public address systems and interactive boards for good audio-visual performance.
- * On semester basis, students are given the opportunity to assess the performance of their teachers and facilities through administered Student Evaluation Questionnaires. This, no doubt has been an impetus for better performance by the lecturers.
- * The Academic Planning Unit, as part of her internal mechanism of ensuring quality assurance, conducts Interim Accreditation for all programmes prior to any accreditation exercise which has made accreditation exercises by the NUC and other regulatory bodies like COREN easy at any time the bodies visit.

The whole programmes in the University are being guided by approved framework of the NUC Benchmark Minimum Accreditation Standard.

The environment of the University is serene compared to what obtains in some of the best Universities in the World. The network of intra-campus roads is excellent and our Library is adjudged one of the best in the country. The green and serene environment is conducive for learning.

210 THE UNIVERSITY LIBRARY

'Nimbe Adedipe Library

The Federal University of Agriculture Library, named after the pioneer Vice-Chancellor Professor 'Nimbe Adedipe, is centrally located on the crest of a hill at the centre of the University. Thus, it commands a very good view of the whole campus thereby making it visible from all sides. There are also four College libraries in operation, located at the College of Natural Sciences (COLNAS), the College of Engineering (COLENG), College of Veterinary Medicine (COLVET), and College of Management Sciences (COLMAS). The other five Colleges are in the process of establishing their own libraries.

The University Library continues to improve on the acquisition of e-journals and e-books, and also improves on the currency of books in prints. Some of the achievements of the library during the period under review include:

- In reaching out to its users, the library embarks on marketing of library products from time to time. One of such programmes was the books exhibition in various Colleges of the University tagged "Ask your Librarian" (16th -18th November 2011). This is an enlightenment campaign to further expose the users to library operations and to encourage them to use the library.

- * Daily provision of current awareness information - display of captions of current information (politics, health, sports, etc) from the daily newspapers on library billboard, which encourages patronage of the library by the users.
- * Create a library porter www.unaablibrary.org that allows for users interaction with the system while the e-journals, e-books and e-magazines downloaded could be accessed 24/7 offline as the need arises.
- * Attraction of book donations to the library by local and international donors including:
 - * 19,000 volumes of books received from a donor agency 'Book for Africa' based in United State of America.
 - * 57 cartoons received from Ceezek foundation based in United State of America.
 - * 449 volumes of text books from Prof. Tokunbo Taiwo of College of Natural Sciences
 - * 630 volumes of books from Prof. Nimbe Adedipe The Pioneer Vice-Chancellor
- * A total sum of thirty million Naira (N30m) Tertiary Education Trust Fund (TETFund) was approved for the procurement of books, journals laptops computers, library furniture and equipments.
- * Establishment of an e-Library with the acquisition of 72 wireless computers
- * Sponsorship of Staff for training/development and professional conferences locally and abroad
- * Creation of 2 College Libraries (i.e. at the College of Veterinary Medicine and the College of Natural Sciences)
- * Establishment of library at the University Institute for Human Resources Development (INHURD)
- * Creation of Nimbe Adedipe Agricultural Research Collection

3.0 RESEARCH, GRANTS AND PUBLICATIONS

3.1 RESEARCH

Research is one of the three tripodal functions of the University. To this effect, the University is seriously involved in research activities to address many problems plaguing our agricultural and other production sectors. During the year under review, the University empowered the Institute of Food Security, Environmental Resources and Agricultural Research (IFSERAR), which is mainly responsible for the core research activities of the University, with a sum of Five Million Naira (N5,000,000.00). IFSERAR funded six (6) different research projects with this money. The Tertiary Education Trust Fund (TETFund) also injected a sum of Ten Million Naira (N10,000,000.00) to finance staff research work during the session.

The University has recorded some breakthrough through its research activities. For example, IFSERAR patented two (2) dual purpose rice varieties named FFUNAABOR-1 (OFADA GOLD) and FFUNAABOR-2 (OFADA WHITE) in December, 2011.

3.2 GRANTS AND AWARDS

Dr. O. D. Akinyemi,
Director DGM

The University Management in its efforts to ensure that FUNAAB meets global standards and expectations of donors for accountability, transparency, with effective management of research funds for maximum impact, established the Directorate of Grants Management (DGM) in February, 2012. The DGM was thus poised to facilitate research efforts of FUNAAB staff through applications for grants and fellowships, the negotiation of grants contracts and administration of research funds.

The goal of the DGM is to encourage quality research in the University in line with its vision to be a centre of excellence in knowledge generation for global development and the sustenance of an environmentally friendly society. This is in addition to strengthening research and scholarship by staff and students in all areas that will benefit the society at the local, national and global levels.

The mandates given to the DGM include:

1. To develop a Research Policy for the University and provide regular monitoring and evaluation of the research activities in the University.
2. To manage the University's internal research funds as well as any external funds made available for research.
3. To organize appropriate training programmes from time to time for the University research community that will enhance research management and competitiveness, for grants to meet the requirements of funding agencies.
4. To monitor all research activities associated with the University and facilitate ethical conduct of research including financial accountability and administration of grants and research related contracts.
5. To promote the publicity and feasibility of research activities in the University through the publication of the University Annual Research reports and other publications that will show-case research excellence in the University.

The DGM is structured into five (5) units namely, Research Development and Policy Unit; Research Ethics and Integrity Unit; Research Links Unit; Legal Unit and Finance Unit.

Below are the ongoing research projects in the University:

Table 10: Details on externally Funded Research Projects in the University

(1) Title of research programme	Improving the livelihoods of small scale farmers through access to Growth Markets (Cassava Growth Markets)	
Reference number	B0340x7	
Funding Agency	In partnership with Greenwich University, UK and 6 other institutions sponsored by the European Union	
Name of lead institution and Director	University of Agriculture, Abeokuta, Nigeria Prof. O. B. Oyewole (Vice Chancellor)	
Key partners	Nigerian (FUNAAB) Prof. L. O. Sanni (Project Coordinator) Prof. S. O. Awonoria Prof. A. O. Dipeolu Dr. K. Adebayo Dr. A. O. Eruola Dr. A. A. Adebowale Dr. A. O. Obadina Dr. M. O. Adegunwa Dr. (Mrs) Petra Abdul Saghir Mr. B. O. Siwoku Mrs. E. O. Kajihansa A. O. Ajisegiri-Account Officer	
Countries covered by the research	Nigeria, Malawi, Tanzania, Uganda, Ghana, India	
Start date	Planned	Actual
	1 st June 2012	1 st June, 2016
End date	December 2016	December 2016
Global budget	---	€ 3.21m
Total FUNAAB programme budget	€431,073	€431,073 EU contribution Counterpart: € 43,107

(2) Title of research programme	Grants from Losses of Root and Tuber Crops [GRATITUDE]	
Reference number	No. 289843	
Funding Agency	In partnership with Greenwich University, UK and 14 other institutions sponsored by the European Union	
Name of lead institution and Director	University of Agriculture, Abeokuta, Nigeria Prof. O. B. Oyewole (Vice Chancellor)	
Key partners	Nigerian (FUNAAB) Prof. L. O. Sanni (Project Coordinator) Dr. Kolawole Adebayo Prof. Mrs. F. O. Henshaw Dr. S. O. Iposu Mr. B. O. Siwoku Dr. A. O. Obadina Dr. A. A. Adebowale Dr. O. P. Sobukola Dr. M. O. Adegunwa Dr. Mrs. S. A. Sanni Dr. (Mrs) Petra Abdul Saghir A. O. Ajisegiri-Account Officer	

Countries covered by the research	Nigeria, Uganda, Zambia, Pacific, Caribbean	
Start date	Planned	Actual
	1 st January 2012	March 2012
End date	December 2014	December 2014
Global budget	€3.75m	€ 2.85m
Total FUNAAB programme budget	€504,300	€ 386,300 EU contribution Counterpart: € 118,000

(3) Title of research programme	EU-African Caribbean and Pacific Science Technology Capacity Project	
Reference number	BO 238 x 15	
Funding Agency	In partnership with Natural Resources Institute (NRI), Greenwich University, UK and 5 other institutions sponsored by the European Union	
Name of lead institution and Director	University of Agriculture, Abeokuta, Nigeria Prof. O. B. Oyewole (Vice Chancellor)	
Key partners	Nigerian (FUNAAB) Prof. L. O. Sanmi (Project Coordinator) B. O. Siwoku Dr. A. A. Adebawale S. Ayanwale C. J. Omohimi A. O. Ajisegiri-Account Officer	
Countries covered by the research	Nigeria, Uganda, Zambia, Pacific, Caribbean	
Start date	Planned	Actual
	May 2010	May 2010
End date	October 2012	December 2012
Global budget	€950,000	€ 807,500
Total FUNAAB programme budget	€115,420.77	€17,844

**** Fund coordinated from NRI while FUNAAB coordinates technical deliveries**

(4) Title of research programme	Cassava: Adding Value for Africa Project	
Reference number	BO 286 x 1	
Funding Agency	in partnership with Greenwich University, UK and 5 other institutions sponsored by the Bill & Melinda Gates Foundation	
Name of lead institution and Director	University of Agriculture, Abeokuta, Nigeria Prof. O. B. Oyewole (Vice Chancellor)	
Key partners	Professor Lateef Sanmi (Country Manager) Bernard Olusegun Siwoku (Business Development Advisor); Dr Samson Odedina (Production Specialist); Professor Adewale Dipeolu (Head M & E Team); Dr (Mrs) Dorcas Adegbite (Gender Specialist: M & E Team member); Dr (Mrs) Petra Abdul Saghir (Livelihood Specialist); Dr Idris Ayinde (M & E Team member); Moses Olusola Ilasanmi (Accounts); Aroyun (Mrs) (Audit); S. A. Balogun (Desk Officer Ogun State); O. B. Adeniyi (Desk Officer Ondo State); Support Staff: A. O. Ajisegiri, M. A. Sorunko, C. Omohimi, O. Ilamid, Y. K. Balogun) Service Providers: See Table below**	
Countries to be covered by research	Nigeria. Field operations-Ondo, Ogun, Lagos	
Start date	Planned	Actual
	June 2008	June 2008
End date	Initial end date March 2011	December 2013
Global Budget	\$13.2m	\$12m
Total FUNAAB budget	\$705,096.73	\$705,096.73

Name	Total Amount \$U.S.	Grant or contract	Status
(5) Federal Institute of Industrial Research, Oshodi (FIRO)	95,040	Contract	Contract ended March 2011
Federal College of Agriculture, Akure (FECA)	64,351	Contract	Contracted Terminated December 2010
Ogun State of Agricultural Development Programme (OGADP)	188,366	Contract	Contracted Terminated December 2010
Ondo State Agricultural Development Project (ODSADEP)	163,776	Contract	Contracted Terminated December 2010
University of Agricultural Abeokuta - Food Science & Technology Department (UNAAB - FST)	71,940	Contract	Contract ended March 2011
University of Agricultural Abeokuta Agricultural & Media Resources Centre (UNAAB - AMREC)	79,225	Contract	Contracted Terminated December 2010
Justice, Development and Peace Movement (JDPM)	64,351	Contract	Contracted Terminated December 2010
Country Women Association of Nigeria (COWAN)	56,423	Contract	Contracted Terminated December 2010
Nigerian Institute of Food Science & Technology (NIFST)	67,450	Contract	Contract ended March 2011
Total	850,922		

(6) Title of Research programme	Cross-border Blackfly Migration Project
Reference number	OU/ICP/CPC/504/AP/07/831/02, 2010/83041-0, 2011/150906-0
Name of Lead Institution and Director	WHO/African Programme for Onchocerciasis Control Dr. P. S. Lusamba-Dikassa - Director APOC Dr. Laurent Yameogo - Programme Manager OU/COD Coordinator
Key Partners	<u>FUNAAB Team:</u> Prof Chiedu F. Mafiana - (Principal Investigator/Team Leader 2007 - 2008) Dr. Sammy O Sam-Wobo - (Principal Investigator/Team Leader 2009 - date) Prof. Jude Anosike (Late) Dr. Babatunde Adewale Dr. Omotola Jayeola Dr. Monsuru Adeleke Dr. Adeyi Akindele Mr. Stephen Oluwale <u>APOC/MDSC Team:</u> Dr. Yusba Dissan Dr. Laurent Toe
	Nigeria and Republic of Benin
Start date	2007
End date	2011
Total Programme budget	Over \$180,000

(7) Title of research programme	Partnership for Regional Food Developers Initiative – A Capacity Building Support Strategy for Poverty Reduction in West Africa and the Establishment of a Food and Organic Agriculture Network	
Reference number	MRCI/08/F07/P33.	
Funding Agency	DFID, UK/ Association of African Universities, Accra, Ghana	
Name of lead institution and Director	University of Agriculture, Abeokuta, Nigeria Prof. O. O. Balogun (Vice Chancellor)	
Key partners	<p>Nigerian Prof L. O. Sanni (<i>Nigeria-Principal Investigator</i>). Prof I. O. O. Aiyelagbe, (To coordinate and provide leadership for the Organic Agriculture component) Dr M. A. Idowu, Dr. I. O. Olayiwola Prof A. Dipeolu Dr. A. A. Adebawale (Desk Officer)</p> <p>Benin Republic Dr. Ir. Moutziron EGOUNLETY Dr. Val Kindomihou,</p> <p>Sierra Leone Dr. S. Fumba Mrs N. Kamara Mrs M. K. Sawi</p>	
Countries to be covered by research	Nigeria, Benin Republic and Sierra Leone	
Start date	Planned	Actual
	September 2008	November 2008
End date	October 2010	October 2010
Total programme budget	£68,395.47	£68,395.52

(8) Title of research programme	Establishment of Food Science and Nutrition Network for Poverty Reduction and Sustainable Rural Livelihood in West Africa [FOSN(UT)-MRCI 325 – 2010]	
Reference number	MRCI 325	
Name of lead institution and Director	University of Agriculture, Abeokuta, Nigeria Prof. O. O. Balogun (Vice Chancellor)	
Key partners	<p>UNAAB Team Prof. L. O. Sanni (Project Coordinator) Dr. (Mrs). J. M. Babajide (Deputy Project Coordinator) Dr. (Mrs). I. O. Olayiwola Dr. A. A. Adebawale Dr. O. A. Obadina-Desk Officer Dr. (Mrs) S. A. Sanni</p> <p>Nigerian (Nigerian Institute of Food Science & Tech (NIFST) Dr. J. Onuora, National President Prof. I. A. Adeyemi, Immediate Past President & Vice Chancellor, Bells-University of Technology, Ota Prof. D. C. Aworin, Chairman, Body of Fellows Prof. Olugbenga Ogunmoyela, Editor-in-Chief, Nigerian Food Journal</p> <p>Nutrition Society of Nigeria Prof I. G. Onimawo, President Dr. W. A. O. Afolabi</p> <p>Sierra Leone Ms. M. K. Sawi</p>	

<i>West African Association of Food Science Tech (WAAFoST)</i> Dr. Ir. M. Egounlery (President), University Abome Calavi, Benin Republic Mr Bola Osinowo (Vice President 1, Anglophone) Fatou N'diaye (Vice President 2, Francophone), Food Research Institute, Senegal Prof. O. A. R. T Ebunshi (Secretary General) Prof. A. N. George (Assistant Secretary)		
Countries to be covered by research	Nigeria, Ghana, Benin Republic, Côte d'Ivoire, and Sierra Leone.	
Start date	Planned	Actual
	March 2010	June 2010
End date	Feb 2011	August 2011
Total programme budget	£97,500	\$140,602.39
Title of research programme	Economic Evaluation and Impacts Assessment of Food Crop Production, Processing and Storage Technologies in Nigeria	
Reference number	ARCN RFA 6.5	
Funding Agency	Agricultural Research Council of Nigeria	
Name of lead institution and Director	Federal University Of Agriculture, Abeokuta	
Key partners	National Cereal Research Institute (NCRI), Badeggi, Niger State Nigerian Institute for Social and Economic Research (NISER), Ibadan, Oyo State	
Countries covered by the research	Nigeria	
Start date	31 st January, 2011	
EconomicEnd date	31 st January, 2012	
Global budget	₦14,909,550.00	
Total FUNAAB programme budget	₦14,909,550.00	

(9) Title of research programme	Selection of Rice Varieties for Moisture Stress Tolerance and Mycorrhizal Benefits for Double Cropped Upland Rice	
Reference number	ARCN (CARGS) RFA 4.2	
Funding Agency	Agricultural Research Council of Nigeria (ARCN)	
Name of lead institution and Director	FUNAAB	
Key partners		
Countries covered by the research	Nigeria	
Start date	January 31 st , 2011	
End date	January 31 st , 2014	
Global budget	₦18,101,265.00	
Total FUNAAB programme budget	₦18,101,265.00	

(10) Title of research programme	Tackling Tomato Wilt from the Root: Sequencing and Cloning of Fusarium Wilt-Resistant Genes for Transgenic Tomato Production in Nigeria	
Reference number	ARCN (CARGS) RFA 7.3	
Funding Agency	Agricultural Research Council of Nigeria	
Name of lead institution and Director	FUNAAB	
Key partners		
Countries covered by the research	Nigeria	
Start date	2 nd Feb., 2011	
End date	2 nd Feb., 2013	
Global budget	₦12,711,750.77	
Total FUNAAB programme budget	₦12,711,750.77	

(11) Title of research programme	Monitoring Viability and Genetic Integrity of Stored Seeds at NACGRAB Gene Bank	
Reference number	ARCN (CARGS) REA 3.9	
Funding Agency	Agricultural Research Council of Nigeria	
Name of lead institution and Director	FUNAAB	
Key partners	National Centre for Genetic Resources and Biotechnology (NACGRAB), Ibadan Oyo State Institute for Crop Genetics and Crop plant Research, Gatersleben, Germany	
Countries covered by the research	Nigeria	
Start date	31 st Jan., 2011	
End date	31 st Jan, 2013	
Global budget	₦ 21,201,333.50	
Total FUNAAB programme budget	₦ 21,201,333.50	

(12) Title of research programme	Development of Integrated Pest Management Technology for Tomato Wilt Diseases and Fruit Borers	
Reference number	ARCN (CARGS) REA 4.8	
Funding Agency	Agricultural Research Council of Nigeria	
Name of lead institution and Director	FUNAAB	
Key partners	National Horticultural Research Institute (NIHORT)	
Countries covered by the research	Nigeria	
Start date	2 nd Feb, 2011	
End date	2 nd Feb., 2014	
Global budget	₦14,822,500.00	
Total FUNAAB programme budget	₦14,822,500.00	

(13) Title of research programme	Development of Low-Tech Affordable Drip Irrigation System for Rural Farmers	
Reference number	ARCN (CARGS) REA 1.14	
Funding Agency	Agricultural Research Council of Nigeria	
Name of lead institution and Director	FUNAAB	
Key partners	Abubakar Tafawa Balewa University, Bauchi	
Countries covered by the research	Nigeria	
Start date	2 nd Feb, 2011	
End date	2 nd Feb, 2014	
Global budget	₦36,261,900.00	
Total FUNAAB programme budget	₦36,261,900.00	

Table 11: Other externally Funded Projects

Donor Agency: Volkswagen Foundation, Germany			
S/N	YEAR	AMOUNT	DETAILS
1	2010	€ 43,802.32	Under the European Foundation Initiatives for Neglected Tropical Diseases (EFINTD) being undertaking by the Dr U F Ekpo of the Biological Sciences Department of the College of Natural Sciences(COLNAS) of the University
Donor Agency: Department of International Development (DFID) of the United Kingdom Embassy			
S/N	YEAR	AMOUNT	DETAILS
1	2010	£ 58,500.00	Building Capacity in Agro-Biotechnology to Improve Tomato Yield in Wilt Endemic Areas of Nigeria And Ghana through "Delphe" Which is the Development Partnerships in Higher Education.
Donor Agency: European Union (EU)			
S/N	YEAR	AMOUNT	DETAILS
1	2009	£ 59,325.45	For the Activities of the West-Africa Organic Agricultural Research and Training(WANOART)
Donor Agency: International Foundation For Science (IFS)			
S/N	YEAR	AMOUNT	DETAILS
1	2010	\$10,000.00	Trainings and Workshop for Scientists
2	2012	\$11,380.00	Trainings and Workshop for Scientists
Donor Agency: International Centre For Genetic Engineering & Bio-Technology (ICGEB)			
S/N	YEAR	AMOUNT	DETAILS
1	2009	€ 15 000.00	Basic Molecular Biology Training Workshop for Scientists

33 PUBLICATIONS

Publications of journals are academic activities that are taken seriously by the academic staff of the Federal University of Agriculture, Abeokuta. Needless to say that staff of the University published about 1,112 articles in reputable local and international journals during the review year as reflected in the following tables, which is an evidence of dedicated research work in the University.

3.4 INAUGURAL LECTURE

A total of thirty-seven (37) inaugural lectures had been held in the University from its inception in 1994 till the end of the year 2012. Out of this number, seven (7) were held between 2011 and 2012. The Table below shows the list of lectures held during the period:

Table 12: List of Inaugural Lectures Delivered between 2011 and 2012

Series	College	Dept.	Delivered By	Date	Topic
31.	COLPLANT	HRT	Professor F. O. Olaniran	2nd Feb, 2011	Horticulture: The Under Exploited Goldmine in Africa
32.	COLERM	AQFM	Professor Samuel Oribasin	20th April, 2011	Water, Water, Water, Every-where... An Enigma
33.	COLNAS	BIO	Professor Muyiwa Segun Ayodele	18th May, 2011	Flowers, Thorns and Thistles: the Good, the Bad and the Ugly Conglomerate Colonizers of the Planet Earth
34.	COLAMRUD	CGNS	Professor (Mrs.) Bolanle Idowu Akerele-Ade	22nd Feb. 2012	Queen's English and the March of History: Reflections on the Nigerian Case
35.	COLANIM	APH	Professor Ayobami Bukola Joseph Aina	28th Mar., 2012	Gout: a Misunderstood Animal

3.5 LECTURES, CONFERENCES, WORKSHOP AND SEMINAR

The University takes the issue of staff development seriously, thus the importance it places on conference/training attendance by its staff. The University encourages academic staff in particular, to present the results of their researches at local and international conferences. In the year under review, thirty five (35) Staff benefited from FUNAAB Staff Capacity Building/ Training overseas. Also, twenty one (21) Staff members secured TETFund Conference grant approval. Eleven (11) staff are currently benefiting from TETFund Academic Staff Training and Development (AST & D) Intervention. In addition, the University supported several academic and non-academic Staff to attend local conferences.

Many International Conferences, Workshops and Seminars were hosted by Federal University of Agriculture between 2011 and 2012, some of which are presented in Table 13.

Table 13: Lectures, Conferences, Workshops and Seminars Hosted in the University between 2011 and 2012

S/N	Event	Type	Date of Event	Hosted By
1.	8th Annual Conference of the National Association of Teachers and Researchers in English as a Second Language	Conference	4-8/7/2011	Department of Communication and General Studies
2.	EU-ACP Regional Workshop for Early Career Scientists and Researchers	Workshop	4-8/7/2011	LEMCEL, FUNAAB
3.	15 th FUNAAB Summer Course in Practical Biotechnology	Workshop	11-15/7/2011	Biotechnology Centre
4.	DePHE Research Project Workshop	Workshop	18/7/2011	COLPLANT
5.	Training Workshop on Fish Farming	Workshop	26/7/2011	AMREC
6.	2 nd DNA Fingerprinting Workshop	Workshop	2-4/8/2011	Genomic Group & IFSERAR
7.	2011 Environmental Management Conference	Conference	12-15/9/2011	COLERM
8.	4 th Seminar Series of USSA	Seminar	21/9/2011	USSA, FUNAAB
9.	Training Workshop on Basic Biotechnology Techniques	Workshop	2/10/2011	Biotechnology Centre
10.	2 nd COLAMRUD Lecture Series	Lecture	19/10/2011	COLAMRUD
11.	39 th Annual Conference of the Weed Science Society of Nigeria	Conference	30/10/2011 - 2/11/2011	Department of Plant Physiology and Crop Production
12.	In-house Workshop on Writing Money Grant Proposals for Development Projects	Workshop	16/11/2011	AMREC
13.	A Pilot Capacity Training on Parenting and Marital Stability	Training	23/11/2011	AMREC
14.	2011 Annual Symposium of the Nutrition Society of Nigeria	Symposium	30/11/11 - 2/12/2011	Department of Nutrition and Dietetics
15.	Lecture to Mark 2011 World AIDS Day	Lecture	1/12/2011	Student Union Body, FUNAAB
16.	A 3-Day Training Workshop on the Application of GIS in Crime Control Health Services Delivery and Agricultural Development	Workshop	7-9/12/2011	FUCONS, FUNAAB

17.	A Pilot Capacity Building Training on Grooming and Pre-Marital Counselling	Training	29/11/2011	AMREC
18.	Cassava SME Audit Training for Nigerian Engineers and Socio-Economists	Training	21/12/2011	C:AVA

4.0 COMMUNITY/ACADEMIC SUPPORTS SERVICES

4.1 INFORMATION TECHNOLOGY

The University Information Communication Technology and Resource Centre (ICTREC) underwent a dramatic change in orientation, policy and philosophy of delivery of most elements of this rapidly changing essential tool for the delivery of the tripartite mandate of the University in terms of teaching, research and extension designed to facilitate learning during the review year. The Centre made tremendous progress during the review year noticeable among which were recorded in the essential areas in the Management Information System Unit, Campus Network Development and Management Unit, Training and ICT Help Desk Unit, Project Development Unit, Open Users, System Maintenance Unit, and in the Multimedia Development and Instructional Technology Unit.

A new development in the deployment of instructional technology is the extensive monitoring of the e-exams through CCTV cameras which are directed at a widescreen LCD monitors in the two centres for students examination. With this implementation student cheating and other examination malpractices were reduced to the barest minimum.

Web Ranking

The University has continued to move up on the World Universities Web Ranking by emerging 7th position in Nigeria, 60th in Africa and 4,833rd in the World as at July, 2011. The Webometrics Centre established by the University has been enriching the web content of the Institution. This task was made easy by the tremendous improvement in learning, research and extension parameters of the University, which translated into the remarkable ranking of the University as FUNNAB was rated 2nd in Nigeria, 35th in Africa in January, 2012.

4.2 COMMUNITY-BASED FARMING SCHEME (COBFAS)

**Dr. J. J. Atungwu,
Director COBFAS**

In December 2010, the Federal University of Agriculture, Abeokuta established the Community-Based Farming Scheme (COBFAS) as a way of bringing the Bachelor of Agriculture (B. Agric.) students close to the realities and practice of agriculture in Nigeria. It is in the wisdom of the University that the students should have a first-hand training and experience in communities where Nigerian farmers reside and practice farming within the same socio-economic system where the farmers operate. The overall aim is to stimulate the students' interest in agriculture and motivate them to take up agriculture as a career and be integrated into the Nigerian rural setting where they will practice agriculture upon graduation.

To achieve this, the University extended the six months Farm Practical Year (FPY) training programme for B. Agric. students to a one-year programme at the penultimate year. This affords the student-trainees, the opportunity to live and work on the farm in rural communities. The University started-off COBFAS in four communities namely Isaga-Orile, Odogbolu, Ode-Lemo and Iwoye-Ketu located at four geo-political zones of Ogun State.

The vision of the programme is to produce highly skilled manpower that will drive the economy in the rural communities in Nigeria through agriculture for sustainable development and food security. The mission is to contribute to sound training of agricultural students toward building great future modern farmers for sustainable development in line with the mission of Federal University of Agriculture, Abeokuta.

The objectives of the programme are to:

- i. Train and build the capacity of young agricultural undergraduates for improved and sustainable increase in agricultural production and productivity.
- ii. Produce generation of modern farmers that are willing to take up agriculture as business in the rural communities and impact positively on the lives of the communities.
- iii. Accelerate agricultural commercialization and agro-industrial development in the communities.
- iv. Create job opportunities for youths in the rural communities and encouraging them to take up agriculture as a business.
- v. Promote natural resource management/organic agriculture.
- vi. Achieve Universal food security and protect vulnerable households from hunger and abject poverty.
- vii. Contribute to food security and reduce poverty in the selected communities.
- viii. Make the impact of the University felt in the selected communities.

The components of the scheme include the following:

- a. Development of rain-fed and irrigated crop farming;
- b. Livestock farming;
- c. Institutional support and strengthening;
- d. Processing, packaging and marketing strategies and
- e. Training and human capital development.

Since inception, COBEAS has made tremendous achievements in the areas of training and entrepreneurship development of students and this has impacted greatly on the host communities. The impacts of the establishment of COBEAS in the four locations on the communities include but not limited to the followings:

- i. Employment opportunities for the youths of the communities
- ii. Advocating for best agricultural practices among host communities
- iii. Improvement in the rural economies
- iv. Increased agricultural output in the communities
- v. Facilitation of improved social amenities and infrastructure in the communities
- vi. Opportunity for university education for the youths in the various communities
- vii. Mentoring of the young people in the communities
- viii. Improved environmental sanitations in the communities.

**Prof. (Mrs) C. A. Afolami,
Director AMREC**

The Federal University of Agriculture, Abeokuta, in her quest to offer an adequate public and institutional support to farmers and investors, established in 1991, the Agricultural Media Resources and Extension Centre (AMREC). The Centre operates through Model Extension Villages:

- by testing latest agricultural technologies available for the zone (South-West)
- by acting as study villages on extension models
- by training of students in practical extension

The Centre has been pro-active and played participatory roles in knowledge/information initiation in the past years, by facilitating mutually meaningful and knowledge-based implementation of projects among primary producers, private sector practitioners as well as researchers.

Some of the activities/projects carried out by the Centre during the year under review include:

- Capacity-building on Fish farming for ten (10) Secondary Schools in Ogun State.
- Honey bee-rearing through establishment of Demonstration Apiary
- Establishment of Small Plot Adoption Technique (SPAT) for Organic Maize Production
- Establishment and maintenance of 3-hectare Cassava Multiplication Plot under the C:AVA project.
- Provision of processing equipments (hydraulic press) to build the Capacities of C:AVA project beneficiaries (processors' groups at Adao and Olorunda communities in Ogun state)
- Presentation of twenty (20) Knapsack Sprayers and 40 fermentation Vats to C:AVA project beneficiaries across 25 communities in Ogun State.
- Business Development Training on Cassava Production and Processing for C:AVA project beneficiaries
- Capacity Building Training for farmers in FUNAAB neighbouring communities on Dry Season Profitable Vegetable Production at Ojoo-Oluwo community.
- Implementation of NESTLE-FUNAAB Farm Family Health Project (FFAHEP) Extension Outreach in Ogun and Lagos States.
- Adult Literacy Programme for farmers in FUNAAB neighbourhood villages at AMREC/FUNAAB Alagbede Adult Literacy and graduation of the 2nd set.
- Capacitybuilding & Family Health Education on Reproductive Health and Parenting for Farm families in FUNAAB Neighbourhood (Kofeso-Alaro, Alagbede, Ojoo-Oluwo, and Owe and Kangel Ogijun, Ijemo-Fadipe, in Odeda LGA and Imala in Abeokuta North LGA.
- Vocational Training for Rural Youths and Farm-families in FUNAAB Neighbourhood & Extension villages - Ijemo-Fadipe, Ogijun, Imala and FUNAAB Neighbourhood villages
- GIYD projects were implemented through 16 major outreaches and a total of about two thousand one hundred and fourteen (2,114) members of farm-families and youths benefitted from the various outreaches and activities.
- Organization of a Farmers' Field day under the externally funded National Agricultural Seeds Council (NASC) project
- Pre-season Training/Workshop on Soyabean Production and Popularization for one hundred and fifty-three (153) farmers, (130 males and 23 females).
- Provision of six diesel engine Soyabean Threshers for soyabean farmers in each of the six southern Agricultural Development Programmes (ADP).
- Operations of AMREC Demonstration Farm for training farmers, extension workers of ADPs, students and other interested members of the public.
- Cultivation of two thousand (2000) heaps of yam, managed participatorily with farmers, harvested at Ajegunle-Adao and marketed at AMREC.
- Establishment and Maintenance of 2-hectare Cassava Demonstration Farm

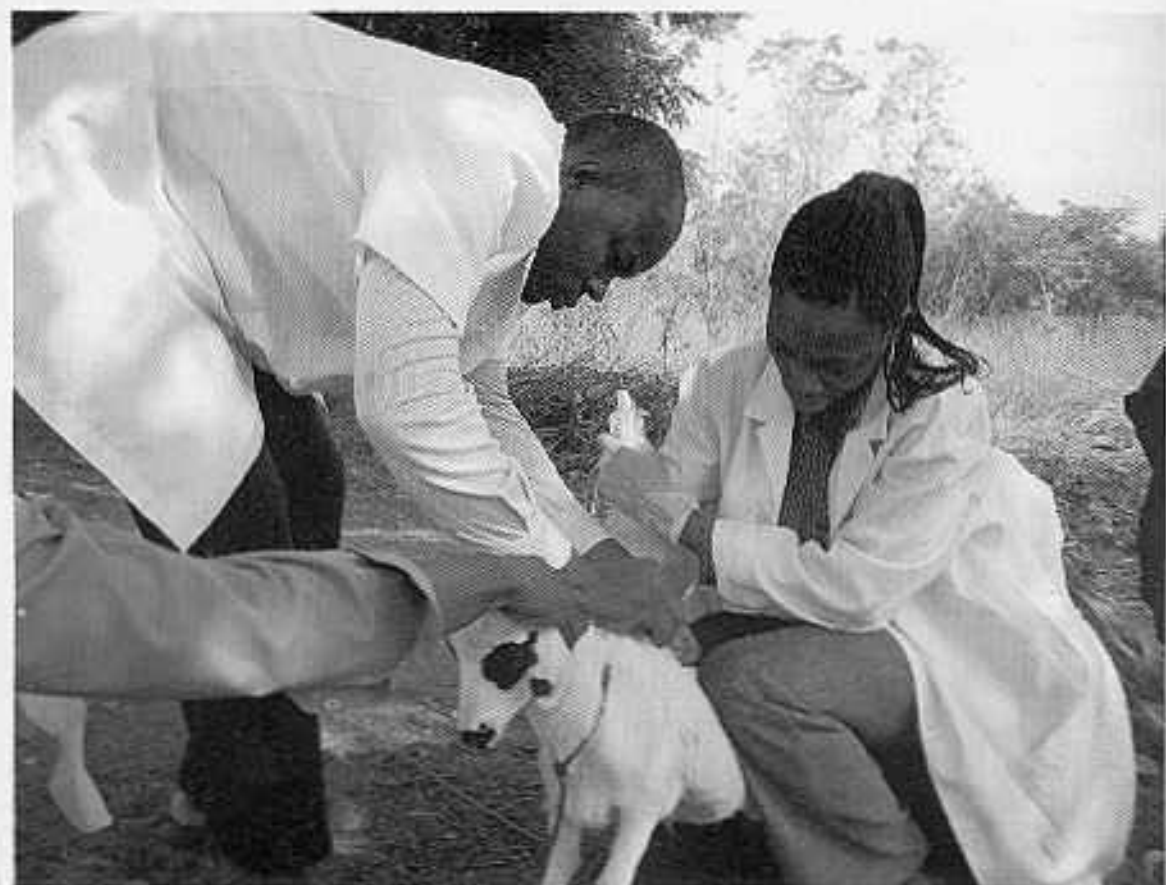

- Input-sourcing and Procurement of plantain suckers for farmers at Akintobi village
- Training workshop on Weed Control, sponsored by Syngenta Agro-Chemicals, Lagos.
- Inputs and advisory delivery services on the cultivation of a 15-hectare soyabean farm at Imala community.
- Cultivation of one-hectare cassava farm on AMREC farm
- Collaboration with Crop Research Programme of the Institute of Food Security, Environmental Resources and Agricultural Research (IFSERAR) throughout the southwest Nigeria-On Farm Rice evaluation trial in the mandate states of FUNAAB toward the release of Ofada Rice varieties.
- Monitoring of Extension Services Programmes and Activities
- Organisation of in-house workshop on "Writing money grant proposals for developmental projects" held on 15th November, 2011.
- Survey and Analysis of Commodity Prices
- Organisation of 2012 Integrated Pre-season training workshop on farm Enterprises and Management for improved productivity and better income for contact farmers in FUNAAB extension villages.
- Training-of-Trainers (TOT) Workshop on Mushroom Production and Post-harvest handling for Agricultural Officers of FUNAAB-TREFAD, Ministries, ADPs, NGOs and Local Government Areas.
- Training Workshop on modern weed control, soil-fertility and management for farmers, FUNAAB FTY students, Extension Agents, Secondary school teachers and students.

4.4 UNIVERSITY SCHOOL

FUNAAB Staff School was established in October 6, 1997 with 106 pupils. The school has graduated up to five hundred pupils to secondary schools and some are already in various universities within and outside the country. The population as at 2011/2012 session stands at six hundred and seventy with the classes ranging from Reception to Primary Six. The school made several academic and social achievements for the period under review some of which are highlighted below:

- The school came third out of fifty-four schools that participated in "Team Spirit in Excellence" organized by MacMillan Publishers Limited.
- The school came first in Quiz and second in Debate competitions at the Literary and Debate Competition organized by St. Birgitta Nursery and Primary School.
- The School came first at the Spelling Competition organized by Kings Kiddies Private School.
- At Adeline Memorial Scholarship Examination, our pupil, Tosin Ajibola came first in the 1st Round of the examination.
- The school's relay team honoured many invitations and performed well.
- At the NTA Children's Day Competition: The school came first overall and emerged first in March Past.
- Cultural Display to welcome Liberian President, President Ellen Sir-Leaf Johnson.
- At the NTA Children's Day Competition: The school came first overall and emerged first in Indomie Competition.

Over the years, the school had graduated pupils to various schools of choice within and outside the state. Some of the school's ex-pupils are progressing well academically and in other areas. Many of them have graduated from top rated universities in the country including Federal University of Agriculture, Abeokuta, University of Ibadan, Ibadan, University of Benin, Benin, Obafemi Awolowo University, Ile-Ife, etc, while some are preparing for the National Youth Service Corp.

5.0 WELFARE MATTERS

The University was committed to the welfare of both staff and students.

5.1 STAFF WELFARE

- All salary and personal emoluments of the staff were paid as at when due
- Deserving staff were promoted as at when due
- Staff were sent on training in and outside the country
- Health care delivery formed part of the cardinal focus of the administration which includes overseas treatment where necessary
- A good number of staff benefitted from TETFund to attend workshops and conferences across continents in the world
- The management provided conducive atmosphere for the union to elect their officials without interference.
- Deserving staff were rewarded for punctuality, regularity, productivity and efficiency in the yearly productivity award.
- Provision of one ambulance for the Health Centre

Cross Section of Awardees during the 2012 Night of Excellence

5.2 STUDENT WELFARE

There has been a rapid increase in students' facilities/services

- Payment of School Fees/Allowances for several indigent students
- Student empowerment through Weekend Student' Farm Work and in the University Library

- The University created a conducive atmosphere for all categories of students in the University.
- Preference was given to special students with certain impairment by helping them with accommodation, means of transportation and other logistics
- The students were given free hands to elect their leader/executive without undue interference from the Management.
- The student union building was given a face lift.
- Some students benefitted from leadership training within and outside the country which has imparted on the quality of leadership among the students
- More hostel blocks were constructed to ease accommodation problem and also increase the number of students resident within the campus
- Transportation facilities have been significantly provided

Vehicle for the physically challenged students

Other Facilities/Services

Other areas in which students' welfare have been further enhanced in this University include among others:

- i. Sinking of boreholes
- ii. Provision of power generating machines as alternative energy source
- iii. Construction of additional building for Student Eateries (Bukateria).
- iv. Encouragement of Youth Organizations such as Man "O" War, Road Safety Club, Nigerian Red Cross Society, etc, which enable the students to express and develop their potentials.
- v. Effective consultation with students on matters that affect them
- vi. Effective communication with the Students through the Vice-Chancellor's private telephone lines.

A Cross Section of the University Buses

A Cross Section of the University Buses

5.3 STAFF PROMOTION

In 2011, a total of eighty one (81) academic staff members and three hundred and twenty (320) non-teaching staff comprising one hundred and forty four (144) senior staff and one hundred and seventy-six (176) junior staff were promoted. A total of 267 non-teaching staff benefited in the promotion exercise of the year 2012, while 93 academic staff members were also promoted.

5.4 SPORT ACTIVITIES

Mr. Bayo Oluwaloki,
Director of the Directorate of Sports

University's Sports Complex

Following the completion of the first phase of the University's Sports Complex, participation in sporting activities by both staff and students has been greatly enhanced. In order to boost students' participation in competitive sports, the University instituted scholarship awards to outstanding sports person (male and female). The beneficiaries of these awards enjoy non-payment of all University levies, free residential hall space and N20,000.00 book allowance.

It is on record that the University from 6th to 9th February, 2011 successfully held NUGA Preliminaries (Southwest Zone) with all the seven participating Universities giving kudos to the University for the Sporting Facilities provided for the competition.

In the year 2012, the FUNAAB Directorate of Sports had the following as some of her activities and events:

- Organised the Annual Intercollegiate Sports Championship/Vice Chancellor's Cup events in 10 Sports among 10 Colleges/Institute (Wednesday, 15th April to Thursday 17th May, 2012)
- Organised the First FUNAAB Staff Unity Games in 6 Sports among 16 teams that were constituted via the compression of 57 Colleges/Institutes/Centres (Monday, 16th to Wednesday 25th July, 2012)
- Organised a novelty match among female and male staff members in FUNAAB (Wednesday, 25th July 2012)
- Hosted Nigerian University Games (NUGA) Zone "F" meeting comprising of 10 Universities in South West Nigeria (Thursday, 2nd August, 2012).
- Organised an In-House Training Retreat Programme for Coaches (Monday, 22nd and Tuesday 23rd October, 2012)

6.0 POSTGRADUATE SCHOOL, COLLEGES AND ACADEMIC CENTRES

6.1 POSTGRADUATE SCHOOL

Front View of the recently Commissioned Postgraduate School

**Professor A. O. Enikuomehin,
Dean Postgraduate School**

1993/94 academic sessions. The Postgraduate School operates across the Colleges in the University and its activities are guided by regulations approved by Senate as recommended by the Postgraduate School Board.

There has been rapid increase in student enrolments for different programmes. As at the 2011/2012 session, one hundred and eighty-eight (188) Postgraduate Diploma students; three hundred and twenty-three (323) Master students and one hundred and twenty-one (121) Ph.D students were registered.

Senate of the Federal University of Agriculture, Abokuta (FUNAAB) approved the establishment of the Postgraduate School on 16th December 1992. The first set of postgraduate students were admitted during the 1992/93 and

In 1997/1998, the Postgraduate School turned out the first set of one (1) Ph.D candidate and seven (7) Masters degree candidates, while in 2011/2012 session 320 (two hundred and thirty-six) candidates were awarded degrees viz; 38 Ph.Ds, 165 Masters, 30 MBAs, 15 MICT, 16 MEM (Professional) and 56 Diploma candidates.

In 2010/2011 session, FUNAAB Postgraduate School started admission process on-line. This innovation puts the Postgraduate School in FUNAAB on the same level with its older counterparts in Nigeria and elsewhere. The cooperation of Information and Communication Technology Resource Centre (ICTREC) of the University, Zenith Bank and the encouragement of the Vice-Chancellor in this regard is noteworthy.

University of Development Studies (UDS), Tamale Ghana sent a delegation to understudy the operation of the Postgraduate School with the hope of running the institution's postgraduate programmes like FUNAAB Postgraduate School. The team was led by Dr. Israel Dzomcku, Vice-Dean, Faculty of Agriculture, UDS and Mr. Gilbert Ansoglenang, Faculty Officer/Assistant Registrar. The Team was in FUNAAB from Monday, 14th to Friday, 18th December 2009.

Postgraduate students have continued their programmes with enthusiasm and determination for ground-breaking research, in spite of the challenges such as strikes, epileptic power supply, etc, facing the nation's universities. Our Postgraduate students have carried out ground-breaking research work with the supervision of our pool of experts who are committed to academic excellence. Dr. A. O. Fafolu received an award for producing the best

Doctoral thesis in agriculture in 2007, emerging as winner of Nigerian Universities Doctoral Theses Award Scheme in agriculture (NUDTAS) in 2007. The thesis was supervised by Prof. O. O. Oduguwa of the Department of Animal Nutrition, and co-supervised by Prof. A. M. Bamgbosc.

The FUNAAB Postgraduate School now occupies its own building, with well developed on-line students registration and data processing facilities as well as the intra-net facility within the School. The building will also accommodate improved and accessible Postgraduate Library before the end of the current session.

We look forward to re-establishing Postgraduate Scholarship awards for outstanding students from Colleges which may not benefit from the Central University Junior Research Fellowship awards.

Our link with other Postgraduate Schools through the Committee on Deans of Postgraduate Schools in Nigeria will be further strengthened while external linkage will be further enhanced and pursued.

Regular publication of Postgraduate activities on the website will also be pursued as a means of improving our visibility world-wide.

62 REPORTS FROM THE COLLEGES

62.1 COLLEGE OF AGRICULTURAL MANAGEMENT AND RURAL DEVELOPMENT (COLAMRUD)

**Professor S.O. Apantaku,
Dean COLAMRUD**

Front View of the College of Agricultural Management and Rural Development

The College at a Glance

The College of Agricultural Management and Rural Development (COLAMRUD) was established to support FUNAAB tripodal mandate of teaching, research and extension services in the areas of agricultural economics, farm management, agricultural extension, rural development and agricultural administration. One of its departments is also responsible for teaching the General Studies courses to all undergraduate students in the University.

As at the end of 2011/2012 academic session, the College had a total of 55 academic staff and 22 non-academic staff, with the student enrolment standing at 1,172. These include 970 undergraduate students and 202 postgraduate students.

Training Output

Between 2009/2010 and 2011/2012 academic sessions, the College successfully presented a total of 403 candidates (Figure 13) for the award of B.Agric Degree - 208 in Agricultural Economics and Farm Management option and 195 in Agricultural Extension & Rural Development option. In addition, 18 candidates were presented for the award of Postgraduate Diploma, 33 for the award of M.B.A. Agribusiness, 85 for M.Agric/M.Sc. and 17 for PhD Degree in various specialty areas of Agricultural Economics, Agricultural Extension and Communication Studies.

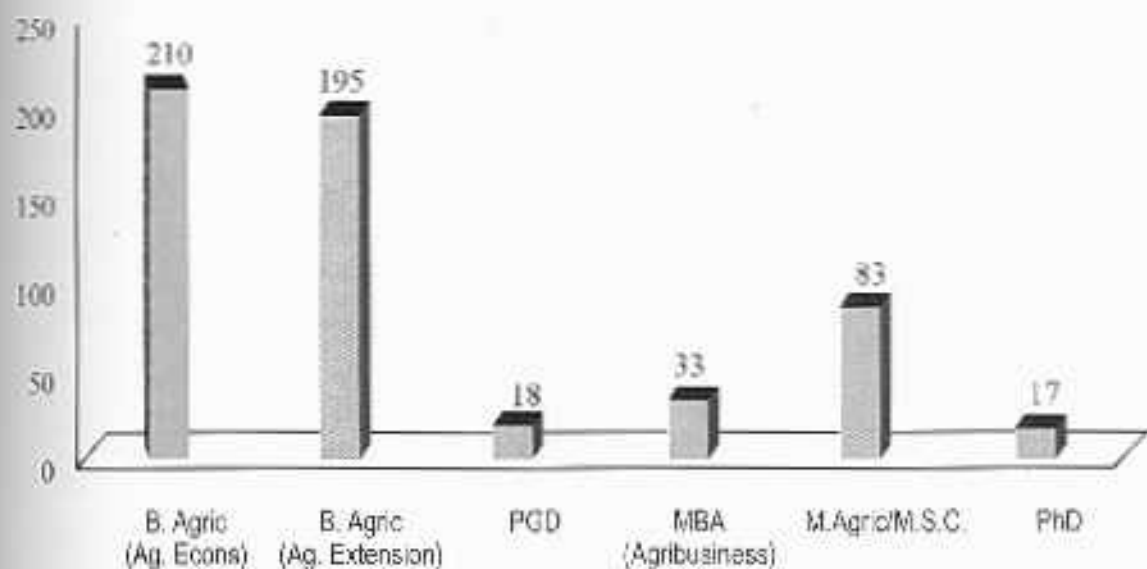

Figure 13: Distribution of COLAMRUD 2010 - 2012 Graduate Output by Degree

A Cross-Section of fresh Students at the 2011/2012 Orientation Briefing Organised by COLAMRUD

Research Outputs

A total of 350 articles were published by College members in COLAMRUD between 2010 and 2012. About two-third (63.7%) of these were published in refereed journals and the rest in conference proceedings. Majority (52.3%) were published in outlets that have international readership.

Description	Number	Percent
Publications in Journals		
• Local	94	26.8
• International	129	36.9
Papers Presented at Conferences		
• Local	73	20.9
• International	54	15.4
TOTAL	350	100.0

The College organised two Lecture Series during the period under review: the first titled *The Persistence of Agricultural Formalism in Nigeria: Towards a situated radicalization of agricultural systems* was presented by Professor P.A. Okuncye, while the Second, titled *Acquiring Good Education for What?: Opportunity Structures and Motivational Perspectives on the Declining Standard of Education in Nigeria* was presented by Professor Bolanle Akcredolu-Ale. The Dean, Professor S.O. Apantaku also presented the lead paper, titled *Assessment of the Participatory Research Methods Among Researchers in Nigerian Agriculture Universities* at the 7th Annual FUTA Agricultural Conference on November 7, 2011.

Grants, Awards, Linkages and Partnership

An AEFM team lead by Professor P.A. Okuncye was awarded the Agricultural Research Council of Nigeria (ARCN) Competitive Agricultural Research Grant Scheme (CARGS) worth N14,909,550.00 in 2011 to prosecute a research titled *Economic Evaluation and Impact Assessment of Food Crop Production, Processing and Storage Technologies in Nigeria*.

Professor Wale Dipolu, Dr Kolawole Adebayo and Dr Idris Ayinde were active members of the multinational team implementing the *Cassava: Adding Value for Africa (C:AVA)* project funded to the tune of US\$16 million by the Bill and Melinda Gate Foundation. The project was initiated in 2008 to develop value chains for High Quality Cassava Flour (HQCF) in Ghana,

Tanzania, Uganda, Nigeria and Malawi, and to improve the livelihoods and incomes of at least 90,000 smallholder households as direct beneficiaries.

Dr Kolawole Adebayo is also a member of the multinational team that won a EUR 3 million research grant from the European Union to finance the project - *Gains from Losses in Root and Tubers (GRATITUDE)* aimed at reducing post-harvest losses in cassava and yam. He is also a member of the team that won a EUR 3 million research grant from the European Union to implement the project *CassavaGmarket* aimed at empowering smallholder farmers in the access to markets; enable farmers to generate cash income from selling produce at markets leading to greater stability of income and increased agricultural production diversity.

The Department of Agricultural Administration (AGAD) won a LEADHER Learning Visit Grant in collaboration with University of Ghana in 2012. Dr Oluwakemi Fajolu and Dr Petra AbdulSalam-Saghir also won two year African Women in Agricultural Research and Development (AWARD) Post-Doctoral Fellowship during the period under review. Similarly, Mr Dare Akerele won the Tertiary Education Trust Fund (TETFund) Scholarship to pursue PhD programme at University of Reading, UK while Mr C.I. Alarima also won a Japanese Government Scholarship to pursue PhD programme at Shimane University, Japan during the period under review.

Front view of the College of Animal Science and Livestock Production

Professor C.O.N. Ikeobi,
Dean COLANIM

The College of Animal Science and Livestock Production (COLANIM) was created in 1988 out of the then School of Technology of the old College of Science and Technology, Abeokuta and currently contributes to the B. Agric. Programme through its five academic Departments namely: Animal Breeding and Genetics (ABG), Animal Nutrition (ANN), Animal Physiology (ANP), Animal Production and Health (APH), and Pasture and Range Management (PRM). The College has a total of 87 staff comprising 60 academic staff in the entire cadre, 21 non-teaching staff and 6 academic Technologists. Undergraduate student enrolment was 1,751 and 2,053 in 2010/2011 and 2011/2012 academic session respectively (Figure 14).

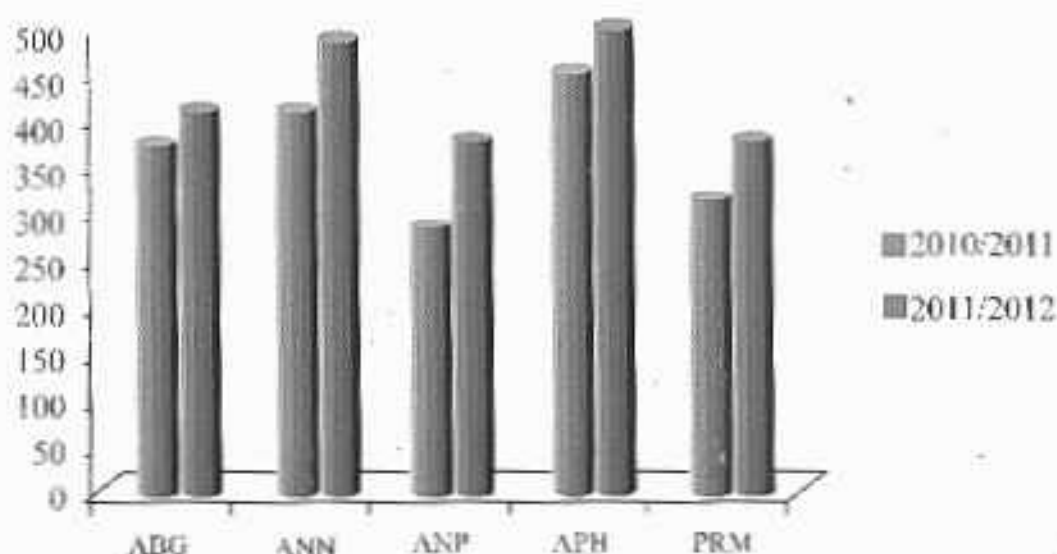

Figure 14: Distribution of Undergraduate Students' Enrolment by Departments for 2010/2011 and 2011/2012

Within the period 2010 to 2012, the College presented a total of 730 students (Figure 15) for the award of B. Agric. degree in Animal Breeding and Genetics (159), Animal Nutrition (175), Animal Physiology (64), Animal Production and Health (209), and Pasture and Range Management (123). In addition, 91 postgraduate students were presented for the award of Postgraduate Diploma (3), M. Agric. (70) and PhD (18) degrees in the period 2010 to 2011.

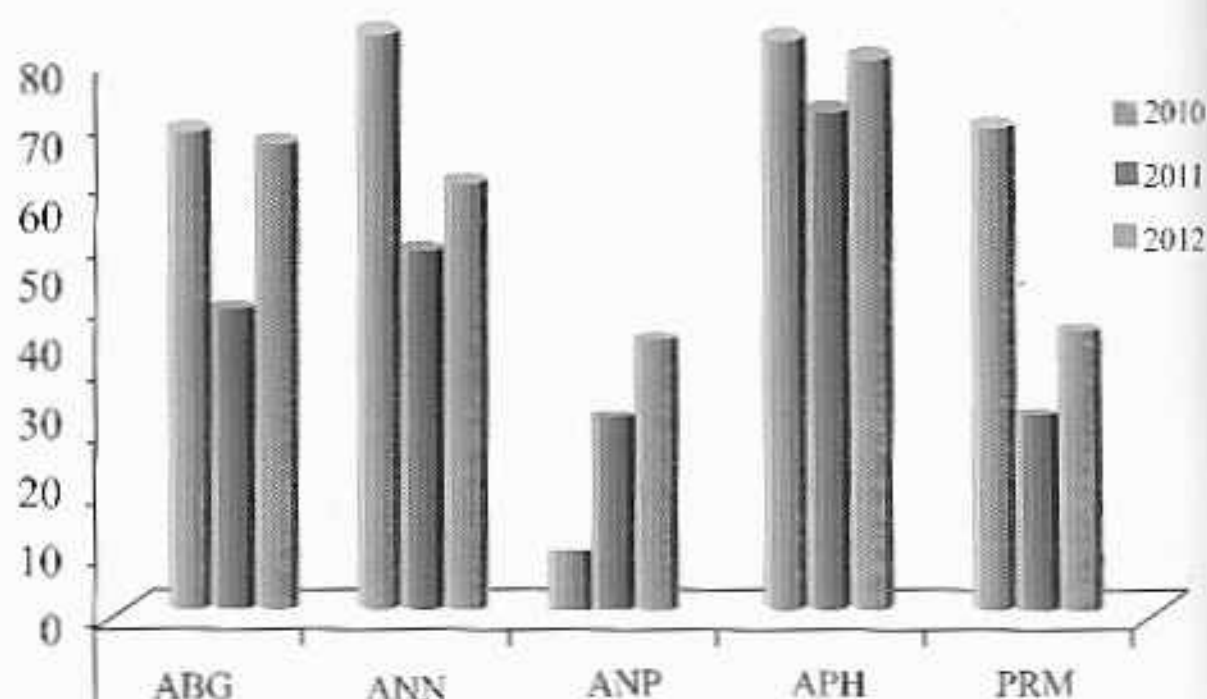

Figure 15: Distribution of COLANIM Graduate Output by Departments from 2010 to 2012

Research Output

A total of 295 articles were published by the academic staff in COLANIM (Table 14) made up of 62.71% peer reviewed journal articles and 37.29% refereed conference proceedings. About 43% of the journal articles and 13% conference proceedings have international readership.

Table 14: COLANIM Academic Staff Publications from 2010 - 2012

Grants and Awards

Dr S. O. Iposu won the FUNAAB research productivity award for Junior Academic in 2010/2011 academic year. Prof. O. O. Oduguwa won the FUNAAB research productivity award for Senior Academic in 2011/2012 academic year. Dr. U. Y. Anlele won a two-year Post-Doctoral Fellowship tenable at Texas Technical University, Lubbock, Texas, USA. Dr. (Mrs.) O. O. Adewumi won the CAS-TWAS Visiting Scholar Fellowship tenable at Institute of Zoology, Chinese Academy of Science, Beijing, China. Academic staff in the College also won millions of Naira from the IFSERAR research grants during this period. Academic staff and postgraduate students won 13 million Naira (N13,000,000.00) as grants from STEP-B project under the Innovators of Tomorrow research grants. Some postgraduate students also brought honour to the College by winning international awards. These include Mr. O. O. Ajayi who won Norman Borlong Fellowship worth US\$20,000.00 tenable at Cornell University, Ithaca, USA. Mr. P. A. Dele won TWAS Fellowship tenable at Institute of Subtropical Agriculture, Changsha, China while Mr. O. A. Olaniyi won the first prize in TEEAL Graduate Research Paper Competition.

Linkages and Partnership

The Departments in the College have partnership with St. Cloud State University, Indianapolis, USA and Cornell University, Ithaca, USA. Collaborative research is ongoing between academic staff (Drs. O. M. O. Idowu and O. A. Fasae) in the College and Njala University, Sierra Leone on strengthening farmer-research linkage in evaluating integrated feeding systems involving protein links and dual purpose goat development in Sierra Leone under the Developing Partnerships in Higher Education (DELPHE) project funded by British Council.

6.2.3 COLLEGE OF ENGINEERING (COLENG)

**Engr. Prof. S.B. Adejuyigbe,
Dean COLENG**

College of Engineering comprises four Departments namely; Agricultural Engineering, Civil Engineering, Electrical/Electronics Engineering and Mechanical Engineering. In the last two sessions, 2010/2011 and 2011/2012 under review, the activities of the College were geared towards achieving the goals and objectives of the College and the University at large.

College of Engineering Building

STAFF DEVELOPMENT:

The strength of College of Engineering has always been in the quality of staff in the College. Many of the lecturers in the College have invested and improved on their qualifications. Eight academic staff members of the College bagged their Ph.D during the year under review. These include Dr. A. A. Aderinlewo (2011) and Dr. O. J. Adeosun (2012) of the Department of Agricultural Engineering, Dr. O. S. Abiola (2011), Dr. J. O. Akinyele (2012), Dr. A. A. Badejo (2012) and Dr. A. A. Adekunle (2012) of the Department of Civil Engineering and Dr. (Mrs) S. I. Kuye (2012) and Dr. R. O. Adetunji (2012) of the Department of Mechanical Engineering.

Three academic staff members of the College got study leave approval to pursue their Ph.D. degrees outside Nigeria. These include: Engr. (Mrs) F. M. Alayaki of the Department of Civil Engineering studying in London, Engr. (Mrs) M. U. Olanipekun and Engr. J. F. Orimolade both of the Department of Electrical/Electronics Engineering studying in South Africa. Also, Dr. B. O. Bolaji of the Department Mechanical Engineering did his Post-Doctoral Research Fellowship in the Department of Mechanical Engineering, Tshwane University of Technology, Pretoria, South Africa.

STAFF EMPLOYMENT

The College's portfolio of excellent performance could be attributed to the increase in the number of staff employed into the College in which seven academic staff and technologists were employed for the departments in the College in an attempt to strengthen the workforce.

LABORATORY EQUIPMENT PROCURED

Some pieces of equipment were procured in the last two academic sessions into the various departments in the College.

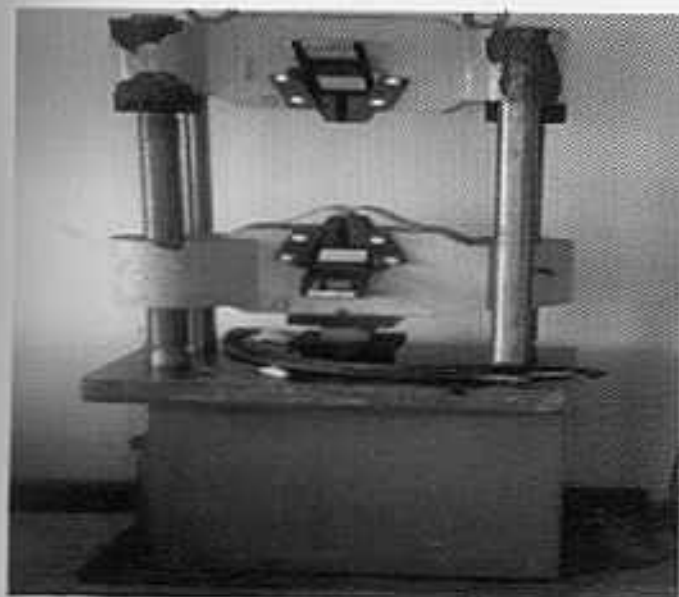

TV COLOUR TRAINER

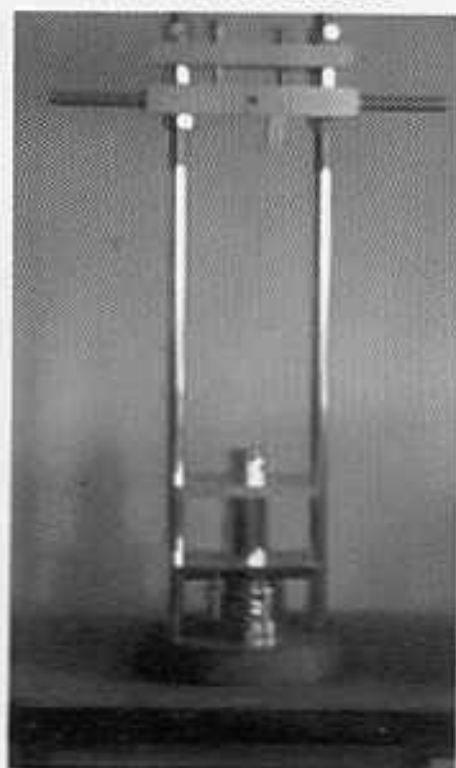

CONCRETE MIXER

**AGGREGATE
CRUSHING TESTER**

UNIVERSAL TESTING MACHINE

**UNIVERSAL TESTING
MACHINE
(CONTROL UNIT)**

COREN ACCREDITATION OF PROGRAMMES IN THE COLLEGE

The Council for the Regulation of Engineering in Nigeria (COREN) Accreditation team, led by Engr. O. A. Ajibola visited College of Engineering between July 29 and August 2, 2012 to accredit all the programmes in the College. The result of the visit was impressive as all Departments got full COREN accreditation status.

PRIZES AND AWARDS

During the session in review, three students of the Department of Mechanical Engineering namely Ademolu T. E, Adiyeloja I. T., and Odubena A. S. presented their project titled Diamagnetic levitation of Vehicles in a competition tagged 'INGENIUS PROJECT COMPETITION VERSION 1.0' held at the University of Lagos from 9th to 13th July, 2012. Their project won second position. Also Mr. Olukayode Idowu, a student of the Department of Agricultural Engineering and Mr. Opalal Fenayi, U, a student of Civil Engineering Department emerged as third best at the Inter Universities Essey competition

organised by Nigeria Society of Engineers (NSE) for Engineering students in Nigeria in November 2011.

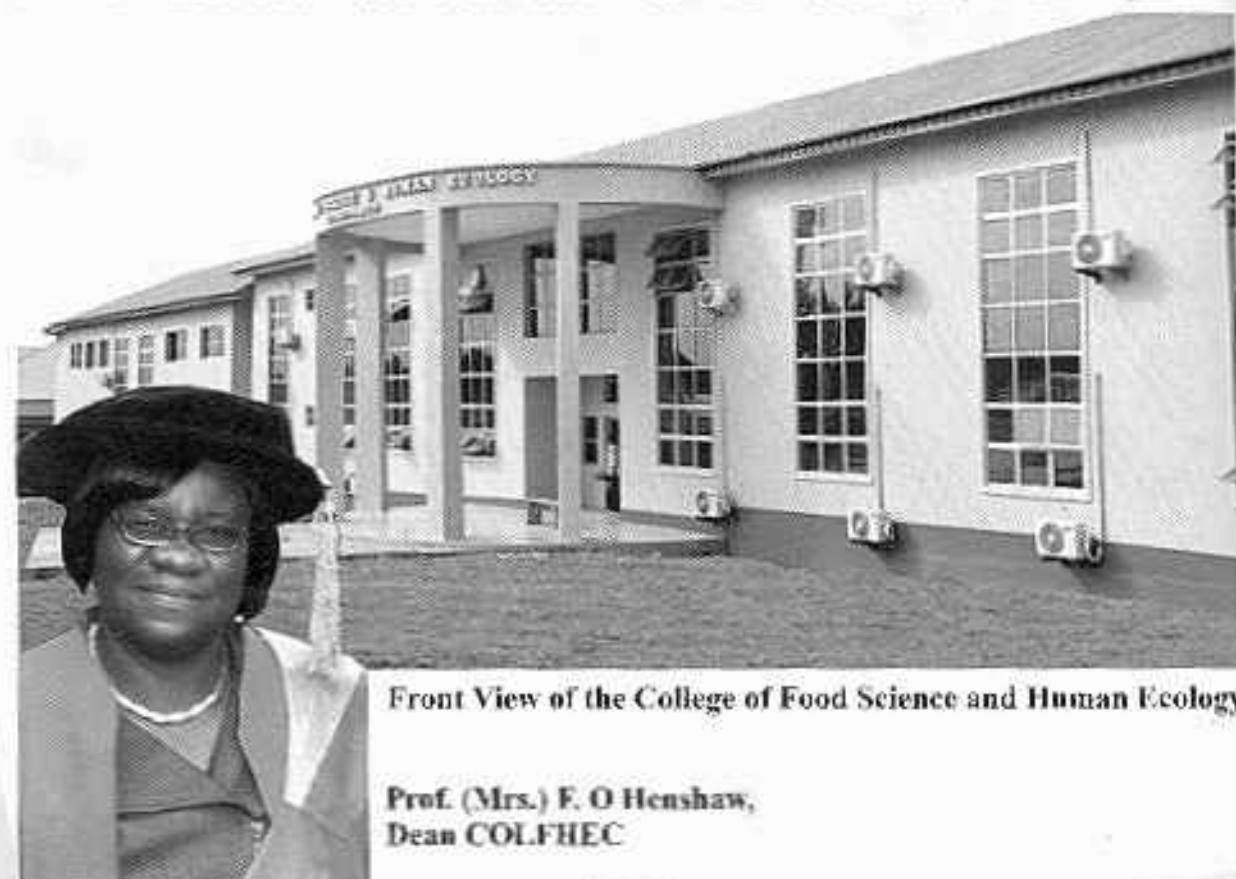

STAFF PROMOTION

Many members of staff of the College who had fulfilled the conditions for promotion according to the University Rules and Regulations benefited from promotions in the two Academic sessions under review.

There is no doubt that College of Engineering had recorded outstanding success in the two academic sessions under review. To crown these successes, the Dean of the College, Prof. S. B. Adejuyigbe became the Vice President of Committee of Deans of Engineering and Technology of Nigerian Universities (CODET) till present day.

Also, Prof. J. K. Adewumi was appointed as a Professor of Agricultural Engineering and Coordinator for NuNet Project for FUNAAB within the session. Similarly, Professor B. A. Adewumi was elected as the National Chairman of Nigeria Institute of Agricultural Engineers, a division of Nigeria Society of Engineers.

6.2.4 COLLEGE OF FOOD SCIENCE AND HUMAN ECOLOGY (COLFHEC)

Front View of the College of Food Science and Human Ecology

Prof. (Mrs.) F. O Henshaw,
Dean COLFHEC

The College of Food Science and Human Ecology was created in 2009 from the splitting of the former College of Agricultural Management, Rural Development and Consumer Studies (COLAMRUCS) into two separate Colleges. The College adopted an appropriate acronym "COLFHEC" as other colleges in the University.

The College of Food Science and Human Ecology comprises of four Academic Departments, namely:

- Department of Food Science and Technology
- Department of Foodservice and Tourism
- Department of Home Science and Management
- Department of Nutrition and Dietetics

Programmes

The College offers various degrees:

- B. Sc in Food Science and Technology, Foodservice and Tourism, Home Science and Management with options in (Child Development and Family Studies, Clothing and Textile, Extension and Rural Development, and Nutrition and Dietetics).
- M. Sc. in Food Processing and Storage Technology, Food Microbiology and Biotechnology, Food Quality Control and Assurance and Food Engineering, Human Development and Family Studies and Clothing and Textile, and Nutrition and Dietetics.
- Ph.D in Food Processing and Storage Technology, Food Microbiology and Biotechnology, Food Quality Control and Assurance, Clothing and Textile, and Nutrition and Dietetics.

ACHIEVEMENTS DURING THE YEAR 2010-2012

1. The College produced Five (5) First Class and Ninety (90) with Second Class Upper graduates across the departments between 2010 and 2012.
2. Many academic staff members were sponsored to attend Local and International Conferences during the period.
3. Efforts to encourage University-

Industry Partnership resulted in the award of Scholarships for training of M.Sc. students in the Department of Nutrition and Dietetics by a local food manufacturing industry (DUFIL).

4. Staff and Postgraduate Students of the College were adequately represented at the AAU-FUNAAB-WAAFOST Food Fortification/Entrepreneurial Training Workshop in February 2011 in Dakar, Senegal.
5. The College hosted two symposia of the Ogun State Chapter of the Nutrition Society of Nigeria "Adolescent Nutrition" and "Sport Nutrition" in 2011 and 2012 respectively.
6. The Head of Department of Food Science and Technology, Prof L.O. Sanni was the Chairman of the LOC for the hosting of the 16th Triennial Symposium of the International Root Crop Society (ISRC), which was held between September 23rd and 28th, 2012.
7. The College presented an Exhibition to showcase research outputs of all departments in December 2011, during the Commissioning of the new College building by the Honourable Minister of Education.
8. Local and International recognition for Professors in the College: Professor O.B. Oyewole, of the Department of Food Science and Technology was appointed as the 5th substantive Vice-Chancellor of FUNAAB;

Professor (Mrs) F. O. Henshaw and Professor L. O. Sanni, of the Department of Food Science and Technology, were appointed as Mentors under the aegis of the African Women in Agricultural Research and Development (AWARD) in 2010 and 2011.

Prof. L. O. Sanni was elected as the President of the Nigerian Institute of Food Science and Technology (NIFST) in October, 2012.

6.2.5 COLLEGE OF ENVIRONMENTAL RESOURCES MANAGEMENT (COLERM)

The College of Environmental Resources Management (COLERM) was established with four other colleges at the inception of the University of Agriculture, Abeokuta, in 1988. The College initially had three Departments, namely:

- Department of Forestry, Fisheries and Wildlife Management
- Department of Agrometeorology and Water Management
- Department of Environmental Management and Toxicology.

The Department of Environmental Management and Toxicology is unique in the Nigerian University System as it was the first Department in the country to award a degree in Environmental Management and Toxicology.

The Department of Aquaculture and Fisheries Management became operational in 1992 after the University had ensured that the minimum standards prescribed by the NUC for new programmes had been met.

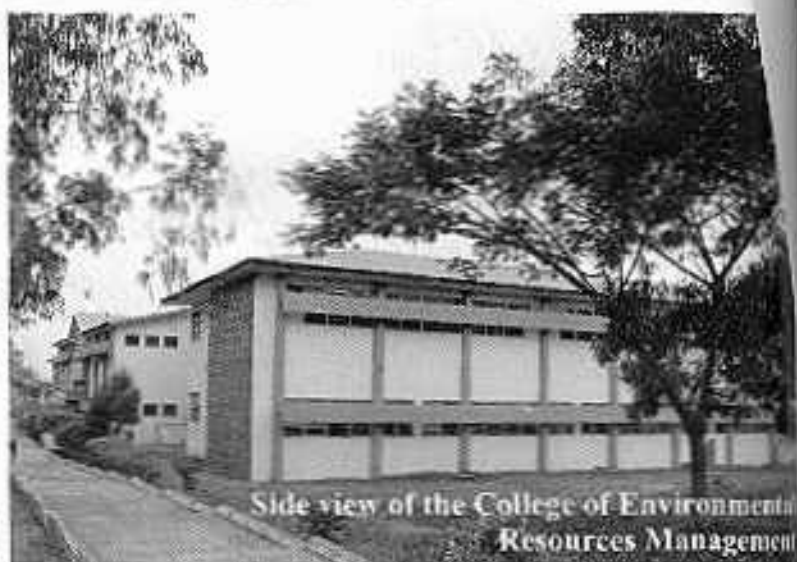

The Department of Agrometeorology and Water Management changed its name in the year 2002 to Department of Water Resources Management and Agrometeorology. The College currently has four Departments namely:

- Department of Aquaculture and Fisheries Management
- Department of Environmental Management and Toxicology
- Department of Forestry and Wildlife Management
- Department of Water Resources Management and Agrometeorology

PHILOSOPHY AND OBJECTIVES

The primary philosophy guiding the training of students is the production of highly skilled manpower in all areas of specializations of Environmental Resources Management. The main objective of the programmes in the College is to provide practically and theoretically sound manpower that will not only be job creators, but also serve as sources of manpower for:

- * Fisheries establishments.
- * Governments' environmental protection agencies, NGOs and industries.
- * Forestry and wildlife establishments.
- * Water corporations and meteorology establishments.

Side view of the College of Environmental Resources Management

The total number of undergraduate students in the College was 1,387 as at 2011/2012 academic session while the number of postgraduate students is 141. The College has a total staff strength of 80 which is made up of 54 academic staff and 26 non-teaching staff. The College therefore, has expanded considerably in terms of student's population and staff strength. The College from its inception has been contributing its part to the realization of the University's tripodal mandate of teaching, research and extension services. The College is involved in various practical oriented research activities aimed at solving societal problems in the various areas of Environmental Resources Management.

ACHIEVEMENTS

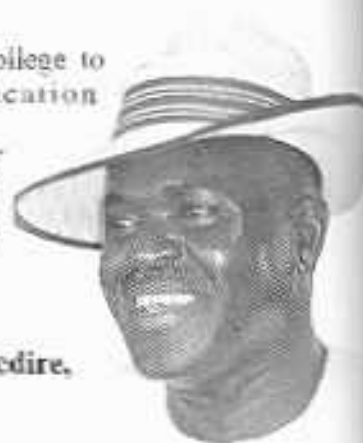

1. The College has succeeded in producing graduates in various Environmental Resources Management disciplines in the past two decades.
2. The second phase of the College building is almost completed.

FUTURE PLANS

Upliftment of the College to meet global education standard.

Establishment of additional Departments in the College.

Professor M. O. Adedire,
Dean COLERM

Front View of the Temporary Site of the College of Management Sciences

Professor B. A. Oyelere,
Dean COLMAS

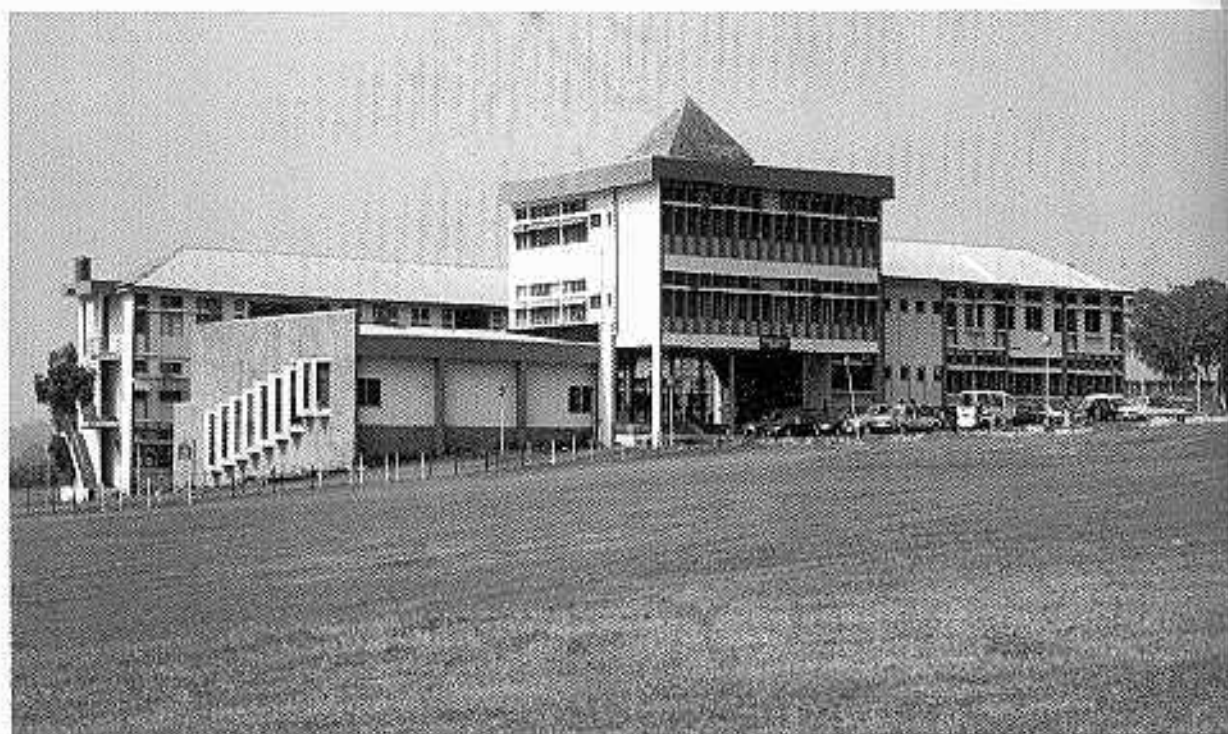

and handed it over to the pioneer Dean, Professor Banji Afolabi Oyelere. Within the short period of its establishment, the College has recorded a modest achievements among which are;

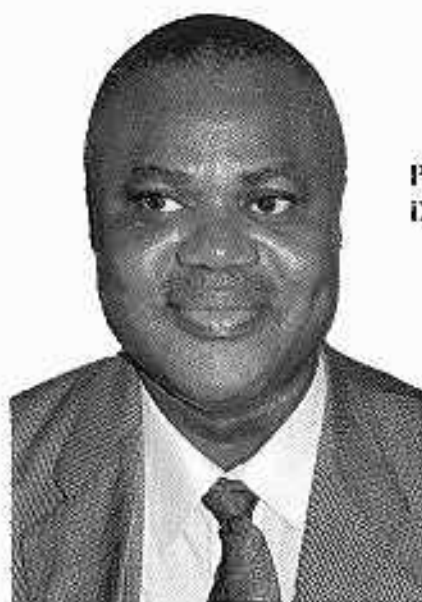

- Review and preparation of curriculum for all the five (5) Departments in the College, viz: Accounting, Banking and Finance, Business Administration, Economics and Entrepreneurial Studies.
- The College prepared new curriculum for the proposed post-graduate courses Master's Degree in Business Administration (MBA) and Postgraduate Diploma in Management Sciences (PGDMS).
- The College has had the visitations of professional bodies like Nigerian Institute of Management (NIM), Institute of Chartered Accountants of Nigeria (ICAN) and Chartered Institute of Bankers of Nigeria (CIBN) to its programmes.
- The construction of the College's permanent site commenced and it has reached advanced stage.
- The Pre-degree and Foundation Management Programme in the Institute of Human Resources Development successfully took off in the 2011/2012 academic session with over two hundred (200) students in the Pre-degree Management Programme and about eighty-eight (88) Foundation Management Programme.
- The students of the College were effectively integrated into the University's sports competition/championship and won laurel in the last intercollegiate games.

The College of Management Sciences (COLMAS) was created from the directive of the President and Commander-in-Chief of the Federal Republic of Nigeria, Dr. Goodluck Ebele Jonathan, GCFR, to all specialized Federal Universities to diversify their academic programme to increase access to higher education by Nigerians. Therefore, the Management of the University set in motion the machinery for the establishment of the College and on Monday, October 17, 2011, the immediate past Vice-Chancellor, Federal University of Agriculture, Abokuta (FUNAAB), Professor Olawafemi Olaiya Balogun, formally inaugurated the College

6.2.7 College of Natural Sciences (COLNAS)

Front view of the College of Natural Sciences

**Professor T. O. S. Popoola,
Dean COLNAS**

The College of Natural Sciences (COLNAS) is one of the pioneer Colleges of the University. As the Institution's metamorphosis continued, only the College of Natural Sciences remained unchanged except for some minor changes in nomenclature. The College was re-organized into Independent Departments, as a result of growth and development.

It is on record that, most of the foundation members of the University were sourced from this College. There is no denying the fact therefore, that the story of this Institution will be incomplete without mentioning the College

of Natural Sciences. It is important to also point out that, it is mandatory that all students passing through the University pass through the College in their 100 and 200 Levels, an indication that the College plays a vital role in the fulfilment of the mandates of the University.

Presently, the College has eight (8) Departments which offer four year B.Sc. Degree Programmes. The Departments are:

- Department of Biochemistry
- Department of Biological Sciences (with options in Botany and Zoology)
- Department of Chemistry
- Department of Computer Science
- Department of Mathematics

- Department of Microbiology
- Department of Physics
- Department of Statistics

These Departments have continued to prove their worth in carrying out the mandates of the University. The College has affiliations with various International Associations and has through these affiliations earned recognitions both locally and internationally.

The College organizes an Annual Conference on the Importance of Science and National Development, and has hosted a lot of International Conferences. At present, it has the following staff holding key positions both within and outside the University. They are:

1. Prof. A. B. Idowu - Chairman, Ceremonials Committee
2. Prof. Dayo Oguntase - Chairman, Publications Committee
3. Dr. O. D. Akinyemi - Director, Directorate of Grants Management
4. Dr. O. Folorunso - Head, Webometric Unit
5. Dr. S. O. Sam-Wobo - Chairman, University Sports Committee and Editorial Assistant, Nigerian Journal of Parasitology
6. Dr. U. F. Ekpo - National Secretary, Parasitology and Public Health Society of Nigeria

Within the reporting years (2010-2012), the academic staff in the College contributed to the body of knowledge with 300 publications, published in both national and international journals of repute. One of the staff of the College, Professor O. Ademuyiwa, of the Department of Biochemistry was named the best Toxicologist from Africa in 2012 by the Society of Toxicology at its Annual Conference held at San Francisco, United States of

America.

The Department of Computer Science won the 1st Prize award in software development competition organized by the Nigerian Computer Society, Ogun State Chapter in 2011. A lecturer in the Department, Dr. A.S. Sodiya, was elected a Fellow of the Nigerian Computer Society in 2011. He was also awarded the TWAS-ASS Microsoft award for young scientist living and working in South Africa in 2011.

It is also on record that many of the lecturers in the College were offered Sabbatical leave appointments both in Nigeria and abroad within the periods, thus contributing to the growth of the academic industry worldwide.

Staff on training in Overseas Universities:

1. Dr. B. S. Badmus - Jadavpur University, Kolkata, India.
2. Dr. O. I. Olusola - Indian Institute of Chemical Society.

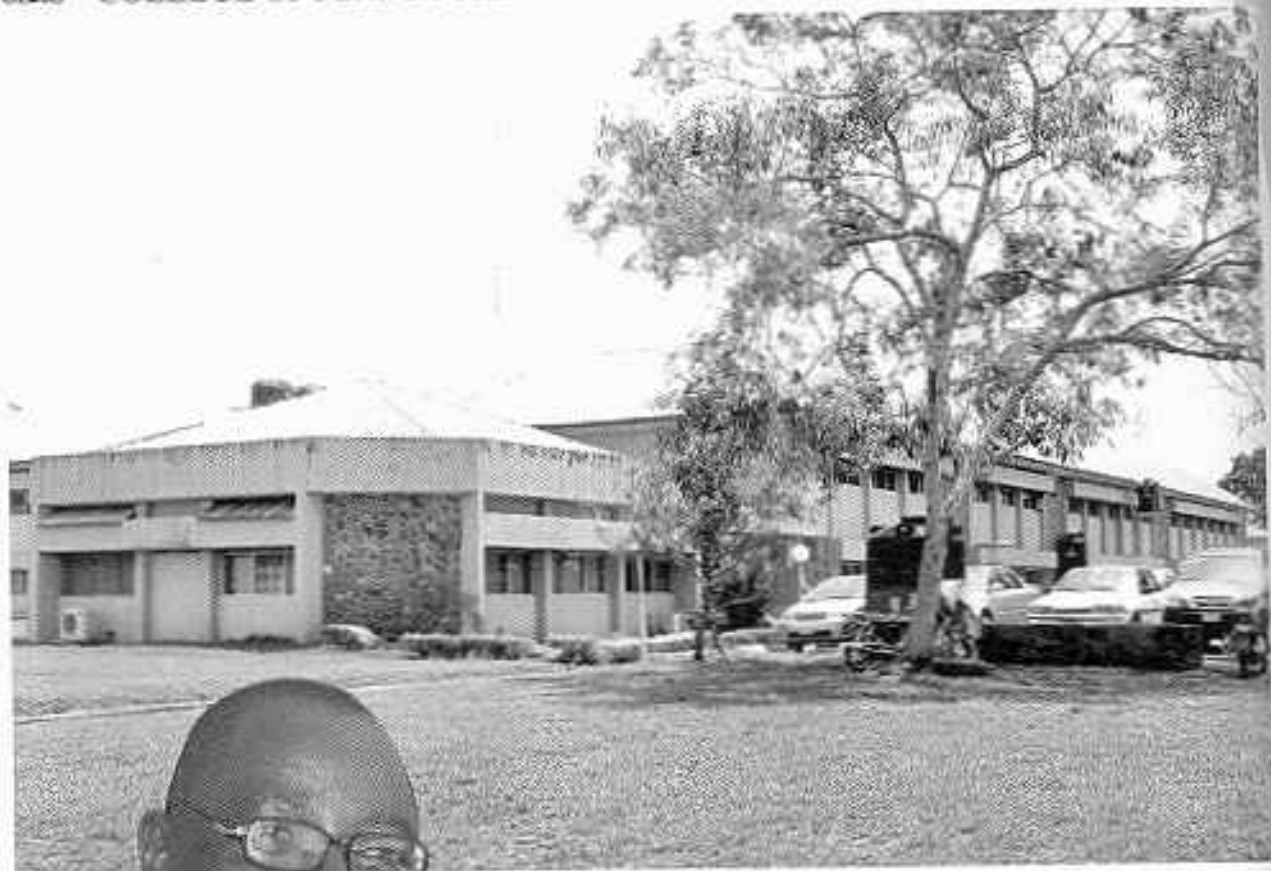

The Dean of the College, Prof. T. O. S. Popoola, is a member of the Governing Councils of Olabisi Onabanjo University, Ago-Iwoye, Ogun State and Federal University of Agriculture, Abeokuta. He has proved very useful and relevant in the activities of both Councils and continues to contribute positively to the growth of these Universities.

The College through one of her staff has attracted the hosting of the annual conference of the Science Association of Nigeria, which is to be held early in 2013, to the University.

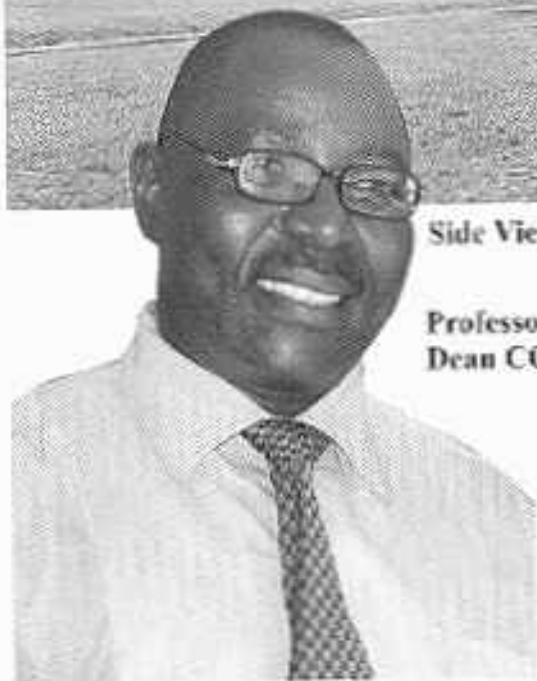

The peace and steady growth which the College is witnessing are pointers to the fact that, the best of the College is yet to come.

6.2.8 COLLEGE OF PLANT SCIENCE AND CROP PRODUCTION (COLPLANT)

Side View of the College of Plant Science and Crop Production

**Professor J. G. Bodunde,
Dean COLPLANT**

2,000. Five Departments that presently make up the College are;

Department of Crop Production
Department of Horticulture
Department of Plant Breeding and Seed Technology
Department of Plant Physiology and Crop Production
Department of Soil Science and Land Management

Research in the College

The College has adequate human capacity in crop and soil research which covers aspects of crop improvement, disease and pest management, weed science, pedology, land reclamation and soil fertility management. The following are notable in the year under review;

- i) Research efforts by staff of the College include engagement in sponsored research projects through grants from DFID and ARC.
- ii) Our research efforts received a boost with the procurement of an ultra modern Leaf area meter at a cost close to Three Million Naira sourced

The College of Plant Science and Crop Production (COLPLANT) was established in 1989 as an offshoot of the old College of Agricultural Production. It is, as of today, made up of five Departments, each contributing to the Bachelor of Agriculture (B.Agric.) Degree Programme as well as training skilled high level manpower at postgraduate level. In the 2010/2011 session, the College had an overall students (undergraduate and postgraduate) population of a little over

through the direct Teaching and Laboratory Cost (DTLC) fund and face lift given to all Departmental Laboratories.

iii) Ongoing research works in the College thus include;

- a) Molecular and field screening of tomato accessions for resistance to fusarium wilt.
- b) Screening of rice lines for drought tolerance
- c) Low cost and efficient irrigation

methods for tomato production.

Staff Promotion

Many of the College staff were promoted during the year as reward for hard work. This cuts across cadres of both teaching and non-teaching staff.

Staff Development

A good number of the College staff (teaching and non-teaching) were promoted during the year and some of the college teaching staff had opportunity of sabbatical leave, leave of absence, overseas conferences attendance and short trainings.

2.9 COLLEGE OF VETERINARY MEDICINE (COLVET)

The Front View of the College of Veterinary Medicine

Professor (Mrs.) M. A. Dipeolu,
Dean COLVET

THE COLLEGE OF VETERINARY MEDICINE

The College of Veterinary Medicine (COLVET) is one of the two Colleges slated for the second phase of development of the University. It took off with the admission of the first set of 100 level students into the six-year Doctor of Veterinary Medicine (DVM) degree programme in the 2001/2002 session.

GENERAL PHILOSOPHY AND OBJECTIVES

The general philosophy of the College is to produce

skilled manpower that is adequately furnished with comprehensive information required for engaging in economic livestock production, animal health, public health, research and teaching, and to produce veterinarians who will be job creators rather than job seekers.

The objectives of the College are:

- (i) To provide adequate training that will enable recipients facilitate production of wholesome meat, dairy and poultry products and promote public health.
- (ii) To equip trainees with knowledge and skill for teaching, research and public service functions.

The DVM degree curriculum consists of two parts: the pre-professional phase of two semesters (100 level) and the professional phase of ten semesters (200-600 level). The professional phase includes the pre-clinical phase, para-clinical phase and the clinical phase.

The College has a Veterinary Teaching Hospital and the following six Departments:

1. Department of Veterinary Anatomy
2. Department of Veterinary Physiology and Pharmacology
3. Department of Veterinary Pathology
4. Department of Veterinary Microbiology and Parasitology
5. Department of Veterinary Medicine and Surgery
6. Department of Veterinary Public Health and Reproduction.

TRAINING AND RESEARCH

The College has successively presented a total of 71 students for the DVM degree between 2009/2010 and 2011/2012 academic sessions.

PUBLICATIONS

A total of over 65 articles were published by academic staff in the College between 2010 and 2012 in reputable local and international journals.

GRANTS AND AWARDS

Staff on overseas training:

- (1) Dr. (Mrs.) O. O. Adehowale (for Ph.D programme at University of Glasgow, United Kingdom).
- (2) Dr. (Mrs.) F. C. Thomas (for Ph.D programme at Royal Veterinary College, United Kingdom).
- (3) Seven Academic and Technical staff members also had awards for overseas training for periods of 3 - 12 months.

International Conference Attendance:

- (4) Grants were given to 6 academic staff in the College for attendance at international conferences during the 2010/2011 and 2011/2012 sessions.

ACHIEVEMENTS

The College has over the years successfully hosted the Veterinary Council of Nigeria (VCN) for the induction of the FUNAAB's Veterinary graduates. The registration of these graduates qualified them to practice the profession of Veterinary Medicine in Nigeria.

During the review year, the Dean of the College, Prof. M. A. Dipeolu, a Fellow of the College of Veterinary Surgeons Nigeria (FCVSN) was appointed the Chairman of the Committee of Deans of Colleges and Faculties of Veterinary Medicine in Nigeria and the Chairman of the Committee of Deans and Directors, FUNAAB. Professor Dipeolu who is a member of the VCN is also an elected member of the Board of Colleges of Veterinary Surgeons of Nigeria where she is contributing to the development of Veterinary Medicine in Nigeria.

Dignitaries at the Induction Ceremony

Inductees taking the Oath during the Induction Ceremony

The College also hosted the Veterinary Council of Nigeria for the 2012 National Professional Seminar with the Theme 'Empowering the Veterinarian for Self Reliance' on September 27th 2012.

**Professor O.B. Kehinde,
Director INHURD**

PROGRAMMES

The Centre runs the following programmes:

1. Pre-Degree Programme (PDG)

Pre-Degree Science Programme

The Pre-Degree Science Programme is a full-time pre-matriculation training designed to prepare students for various degree programmes in agriculture, engineering and sciences of the Federal University of Agriculture, Abeokuta.

Pre-Degree Management Sciences Programme

The Pre-Degree Management Programme is a full-time pre-matriculation training designed to prepare students for various degree programmes in management sciences of the Federal University of Agriculture, Abeokuta. Academic activities started on the programme in 2011.

2. The Foundation Science Programme (FSP) started in October, 2006 after the Diploma Programme (DICEP) was discontinued. The programme has also been replaced by Cambridge A' Level.

3. Part-Time Degree Programme (PTDP)

The programme, a non-residential one, was established in the year 2007 with lectures holding at the Main campus of the University. It runs for one year over and above the number of years for the regular programmes.

INTRODUCTION

The Institute for Human Resources Development (INHURD) formerly known as Centre for Human Resources Development (CENHURD) was established in November, 2002 and was transformed to an Institute in 2010.

Table 15: PTDP Students' Enrolment from Inception till 2011/2012

SESSION/LEVEL	100	200	300	400	500	600
2007/2008	178	27	18			
2008/2009	236	202	35	18		
2009 /2010	No admission	236	226	43	18	
2010/2011			235	250	26	
2011/2012	138	43	36	235	229	26

4. Cambridge A' Level in Science and Management, which commenced academic activities in 2012.

Relative peace and harmony had prevailed at the Centre now Institute since inception. The Institute has witnessed steady progress and development, which were characterized by expansion in the programmes offered, steady growth in student enrolment and performance. Though there were few cases of students' misconduct, internal control measures put in place by Management were effective in curbing them. INHURD Management has observed that with more effective, timely planned and executed activities, INHURD's sustainability, growth and expansion would be assured.

**Professor O.A. Osinowo,
Director IFSERAR**

8. Livestock Research Programme

Research agenda were prepared to address among other things problems identified through the diagnostic survey. Thereafter, there was a Call for Proposals in 2010 which generated considerable interest within the University's Academic Staff and several research topics were submitted. Fifty-two Multi-disciplinary Research Projects which spread over the 8 Research Programmes were eventually selected and awarded Grants totalling N17,000,000.00.

The 2nd year of IFSERAR (2011) was one of consolidation as the Institute grappled with the setting up of physical facilities and infrastructure, staffing and optimization of the utilization of scarce financial resources. There were notable achievements made possible by the Vice-Chancellor's intervention and the pioneering doggedness of the Institute's staff and Programme Leaders, as well as a number of Researchers from the Colleges.

The 2011/2012 academic session was particularly eventful for IFSERAR for the following reasons, among others:

- Successful Field Visit by National Variety Release Committee and other relevant agencies to collaborating Farmers' Farms in Ogun State on the Ofada Rice Project.
- Stocking of Aquaculture Ponds with fingerlings following the impounding of water at the IFSERAR Dam
- Commencement of turkey production by IFSERAR at O-ORBDA site
- Completion of Draft Manual for Agricultural Statistics, and
- Receipt of Import Permit from the Federal Government for the importation of Kalahari Red Goats from South Africa.

During the year under review an additional 30 ha of land was cleared at IFSERAR Farm bringing the total cleared so far to 77 ha. The Aquaculture and Fisheries Research Programme constructed a 3-ha reservoir while the Crop Production Research Programme constructed maize crib. The Kalahari Red Goat Project of the Livestock Production Research Programme was able to establish 16 ha of paddocks, construct a Project Office block and a Goat House. The Biosciences Research Programme continued with the construction of its field facilities while the Environmental Resources and Conservation Research Programme continued with the

Following the establishment of the Institute of Food Security, Environmental Resources and Agricultural Research (IFSERAR) in December 2009, one of the first activities was to conduct Diagnostic Survey of the University's 8 Mandate States of Edo, Delta, Ekiti, Lagos, Ogun, Ondo, Osun and Oyo. This was followed by the constitution of Research Committees to develop the Research Agenda for each of the following Research Programmes of the Institute:

1. Agricultural Mechanization Research Programme
2. Aquaculture and Fisheries Research Programme
3. Biosciences Research Programme
4. Crop Production Research Programme
5. Environmental Resources and Conservation Research Programme
6. Food and Nutrition Research Programme
7. Food Security and Socio-economic Research Programme

construction of its field facilities. Additional computers and high performance printers were also acquired. The University allocated a 14-seater bus to the Institute, which has led to improvement in logistics. Thirty-two (32) research projects were funded by ETF in 2011 at a total cost of N10,000,000. Eighty-five percent of the research grants have been released to the Research Team Leaders as at May 30, 2012.

Seminars and Workshops

IFSERAR University-wide Lecture Series, No. 2, titled "Enhancing the Potential of the Academia through Intellectual Property" was delivered by Engr. (Dr.) Umar B. Bindir, Director-General, NOTAP, Federal Ministry of Science & Technology, Abuja, on June 2, 2011.

A Workshop titled "**Framework for Agricultural Statistics in IFSERAR Mandate States**" was held on Tuesday, June 14, 2011. Arising from this, a Committee Chaired by the

Head of the Department of Statistics, FUNAAB, was set up to develop a Manual for the collection of agricultural statistics in Nigeria.

IFSERAR also co-sponsored a Training Workshop on DNA Fingerprinting in collaboration with the FUNAAB Genomic Group. The programme is currently on.

Dr. Bello of Livestock Research Programme was sponsored for a Training Workshop in Genomics at the FUNAAB Biotechnology Centre early in July, 2011. Dr. (Mrs.) Taiwo also attended a Workshop on Patents Information at Abuja from July, 2011.

IFSERAR recorded significant progress in 2011, laying the foundation for future achievements. The support and funding by the University and ETF, cooperation of Stakeholders, as well as the collaborative efforts of staff of all cadres across the University are all gratefully acknowledged.

6.5 Centre for internationalization and partnerships (CENIP)

**Dr. A. A. Oyekanmi,
Director CENIP**

later transformed into what is now known as the Centre for Internationalisation and Partnerships (CENIP) by the Governing Council of the Institution on June 30, 2010. The Centre has organized in recent past an international lecture delivered by the President, Galilee International Management Institute, Nahalal, Israel and international workshops/trainings in collaboration with CTA, Netherlands and ITOCA, South Africa.

In addition, a good number of staff/students have benefited from long and short term international trainings, conferences and workshops facilitated by CENIP in Israel, India, South Africa, Dubai and United Kingdom among others.

Mandates

Achievement of functional relationship within the University and with other agencies and institutions both nationally and internationally, in the realization of the mandate of FUNAAB through optimum utilization of shared resources.

Linkage Policy

- Any intended or on-going linkage activity involving the University with other local or foreign University

INTRODUCTION

Directorate of Linkages and Partnerships was re-established on September 17, 2007, after a year-long merger with the University Research and Development Centre and was

shall be registered with CENIP clearly stating the linkage objectives, expected outputs, resource flows, linkage mechanisms and duration of the linkage.

- Any externally funded collaboration shall be duly registered with one electronic and one hard copy of the terms of the collaboration deposited with CENIP.
- A service charge of 12% of any international grant shall be deducted by the University as overhead cost.
- Of the 12% service charge to be deducted by the University on every internationally funded collaboration, 2% shall be for CENIP, while the balance of 10% shall be retained by the University.
- Any intended visit to any foreign University by any staff or students of FUNAAB shall be registered with CENIP clearly stating the visit objectives, expected outputs, resource flows, visit mechanisms and duration of the visit.
- All official visits by foreigners to FUNAAB shall be registered with CENIP through their hosts departments, clearly stating the visit objectives, expected outputs, resource flows and duration of the visit.
- Any linkage activity involving the University shall be supported by a Memorandum of Understanding (MOU), which shall clearly spell out modalities for joint utilization of facilities and clearly specify who provides what.
- All MOUs shall necessarily be in tandem with the University's strategic linkage objectives and national developmental goals.
- Strong internal and external collaborative linkages.
- Result oriented collaboration with institutions and industries for optimum realization of training, research and extension mandate of FUNAAB.

FUNAAB Foreign African Scholarship Scheme (FUFASS)

Is a way to build networks with other nations, institutions and universities across the globe and as part of efforts to strategically position the University among top 10 universities in Africa and among the top 100 Universities worldwide, the Governing Council of the Federal University of

Agriculture, Abeokuta at its meeting of June 11, 2010 established the FUNAAB Foreign African Scholarship Scheme (FUFASS) as a conscious effort to disseminate knowledge, through its contribution to sustainable development and poverty reduction, and support research efforts to be integrated into the international scientific community. The Scheme commenced with effect from the 2010/2011 Academic Session with the pioneer set of beneficiaries from the Republic of Liberia, the Gambia and Sierra Leone.

FUNAAB remains till date one of the very few institutions in Africa to promote and fund this internationalization concept of providing scholarship opportunities for nominees of the Governments of African countries for Undergraduate, Postgraduate, Postdoctoral and Skills Acquisition Programmes. FUFASS aims at keeping beneficiaries up to date by providing innovative teaching tools that encourage acquisition of skills and knowledge for development.

FUFASS beneficiaries following the completion of their courses are to return home to apply the newly acquired skills and knowledge toward the development of their home countries in order to foster capacity building. CENIP maintains a popular link on the University web page, which is visited by million unique visitors.

International Scholars Resource Centre

The administrative office of CENIP is housed at the International Scholars Resource Centre which is a massive edifice conspicuously positioned on a high elevation where visitors would be entertained with a panoramic view of the superbly scenic campus. The Centre has modern facilities to host high level professional conferences and meetings, which include seminar theatres and rooms for plenary sessions and small group break-out sessions, as well as a twenty-four (24) room guest house which is equivalent of a five star hotel. The landscape is a beautiful one to behold in addition to a robust parking space and other relaxation outfits, all within a fenced enclosure to guarantee privacy and comfort. The four sections of the expansive Centre are: Administrative Building, Library/Museum, Academic Building and Guest House

Guest House of the International Scholars and Resource Centre

INTER UNIVERSITY LINKAGES

FUNAAB is currently engaged in inter University linkages with several reputable institutions. The existing linkages and partnerships of the University with other Institutions, Research Centres, Agencies, Colleges and Individuals from 2010-2012 are presented in Table 16.

Table 16: Some Collaborative Organisations with the University as at 2012

S/No	University/Colleges	Collaborating Agencies	Nature of Collaboration (Research/Training)
1.	College of Animal Sciences, FUNAAB	Cornell University, Ithaca, U.S.A	Research Collaboration, Staff/Students Exchange
2.	FUNAAB	Moi University Eldoret, Kenya	Research Collaboration, Staff/Students Exchange
3.	College of Plant Science and Crop Production, FUNAAB	Mendel University of Agriculture & Forestry Brno, Czech Republic	Research Collaboration, Staff/Students Exchange

21.	Department of Agricultural Administration FUNAAB	University of Ghana, Leghon, Ghana	Research Collaboration
22.	Dr. A. R. Popoola	Kwame Nkrumah University of Science and Technology, Kumasi, Ghana	Research Collaboration
23.	Dr. A. R. Popoola	Biotechnology Advanced Laboratory, SHESTCO, Abuja	Research Collaboration

Some of the partnerships have started to yield staff exchange opportunities for FUNAAB staff especially in the College of Plant Science (COLPLANT) and the College of Agricultural Management and Rural Development (COLAMRUD).

7.0 PHYSICAL DEVELOPMENT

7.1 GIANT STRIDES

The University in the last few years has witnessed a geometric growth in terms of physical development among others. There were about 200 projects initiated and completed between 2010 and 2012 among which are the Vice-chancellor's Lodge, International Scholars Resource Centre, Intra-Campus road close to 20 kilometers, Postgraduate school, Veterinary Teaching Hospital complex, modern sport complex, 2000 capacity lecture theatre, 500 capacity computer laboratory and many blue-chip projects too numerous to mention in this report.

7.2 COMMISSIONED PROJECTS

Block A & B Unity Buildings

Institute of Food Security, Environmental Resources and Agricultural Research (IFSERAR) Building Complex

A Section of the New Female Hostel

Mamood Yakub Tefund 2000 Seater Building

500-Seater Computer Laboratory

Vice-Chancellor's Lodge

Pro-Chancellor's Lodge

Chancellor's Lodge

International Scholars Resource Centre

Postgraduate School

College of Food Science and Human Ecology (COLFHEC) Building

College of Environmental Resources Management (COLERM) Phase II Building

Livestock Processing Complex

Farm Office Complex, temporarily occupied by the College of Management Sciences

Intra-Campus Road

7.3 ON-GOING PROJECTS

Almost Completed 2,500 Seater Theatre

Veterinary Teaching Hospital Complex under Construction

College of Management Sciences Complex under Construction

Almost Completed Staff School of the Federal University of Agriculture, Abeokuta

Sports Complex

7.4 PROJECT EXECUTED BETWEEN 2011 AND 2012

Table 17: List of Projects Executed from 2011 to 2012

S/N	PROJECT	YEAR OF AWARD	DATE OF COMPLETION	SOURCE OF FUND	REMARK
2011					
1	Construction of Student Hostel at INHURD (BLOCK B)	2011	2011	Extra Government Earnings and Other Charges	Completed and in use
2	Construction of Student Hostel Block C	2011	2011	Extra Government Earnings and Other Charges	Completed and in use
3	Construction of Student Hostel Block D	2011	2011	Donation From Zenith Bank	Completed and in use
4	Construction of Chancellors Lodge	2011	2011	Extra Government Earnings and Other Charges	Completed and in use
5	Construction of Pro-Chancellors Lodge	2011	2012	Extra Government Earnings and Other Charges	Completed and in use
6	Construction of Vice Chancellors Lodge	2011	2012	Extra Government Earnings and Other Charges	Completed and in use
7	Construction of IFSERAR Farm office & Security House	2011	2012	Extra Government Earnings and Other Charges	Completed and in use
8	Construction of Access Box Culverts (2 nd Gate to Bakery along Farm Centre road)	2011	2011	Extra Government Earnings and Other Charges	Completed and in use
9	Construction of UNIS Hostel Phase II (COMMON ROOM)	2011	2011	Extra Government Earnings and Other Charges	Completed and in use
10	Construction of UNIS Hostel Phase II (LAUNDRY)	2011	2011	Extra Government Earnings and Other Charges	Completed and in use
11	Construction of UNIS Hostel Phase II (GIRLS HOSTEL- BLOCK C)	2011	2011	Extra Government Earnings and	Completed and in use

12	Construction of UNIS Hostel Phase II (BOYS HOSTEL- BLOCK H)	2011	2011	Extra Government Earnings and Other Charges	Completed and in use
13	Construction of Staff Nursery and Primary School	2011	-	Extra Government Earnings and Other Charges	Ongoing
14	Construction of Earth Roads Network for Farm centre	2011	2011	FGN 2011 Capital Grant	Completed and in use
15	Construction of Interlocking Paved car Park, and Driveway at International Scholars and Resource Centre	2011	2011	Extra Government Earnings and Other Charges	Completed and in use
16	Construction of Central Car Park (Interlocking Paving) at PG School, COLFHEC, COLERM Phase II, 2000 Lecture Theatre, and Central Computer Laboratory.	2011	2011	Extra Government Earnings and Other Charges	Completed and in use
17	Construction of Car Park for Unity Building	2011	2011	Extra Government Earnings and Other Charges	Completed and in use
18	Construction of Crop Labour Line Accommodation Building for the Farm Centre Phase II	2011	2011	Extra Government Earnings and Other Charges	Completed and in use
19	Construction of Agro-Market for the Farm Centre Phase II	2011	2011	Extra Government Earnings and Other Charges	Completed and in use
20	Construction of Box Concrete Culverts along Plantation Village Road	2011	2011	Extra Government Earnings and Other Charges	Completed and in use
21	Construction of Gate Houses for Vice	2011	2011	Extra Government	Completed and in use
22	Completion of Sports Complex Site Office	2011	2011	Extra Government Earnings and Other Charges	Completed and in use

23	Construction of Gate House for International Scholars and Resource Centre	2011	2011	Extra Government Earnings and Other Charges	Completed and in use
24	Supply and Installation of Lecture Theatre Seats for Post Graduate School	2011	2011	Extra Government Earnings and Other Charges	Completed and in use
25	Extension of 11 KV Line, Installation of New 500 KVA, 11/0.415 KV Distribution Transformer and 415 Distribution Network to service ISEC	2011	2011	Extra Government Earnings and Other Charges	Completed and in use
26	Extension of 415V Distribution Network to Service The Proposed UNAAB Staff School	2011	2011	Extra Government Earnings and Other Charges	Completed and in use
27	External Electrification of New 500 KVA (11/0.415KV Distribution Substation & Line) to Service Zoological Garden	2011	2011	Extra Government Earnings and Other Charges	Completed and in use
28	Re- construction of University Ring Road	2011	2011	FGN CAPITAL 2011	Completed and in use
29	Construction of Road from Post Graduate School Junction to Farm Centre	2011	2011	FGN CAPITAL 2011	Completed and in use
30	Construction of Road from Isolu Second Gate to the Junction of Farm Centre Road	2011	2011	FGN CAPITAL 2011	Completed and in use
31	Fencing of International Scholars and Resource Centre LOT I	2011	2012	Extra Government Earnings and Other Charges	Completed and in use
32	Fencing of International Scholars and Resource Centre LOT II	2011	2012	Extra Government Earnings and Other Charges	Completed and in use
33	Fencing of International Scholars and Resource Centre LOT III	2011	2012	Extra Government Earnings and Other Charges	Completed and in use

34	Completion of COLVET Phase II Building	2011	2012	Extra Government Earnings and Other Charges	Completed and in use
35	Fencing of The Vice-Chancellors Lodge	2011	2011	Extra Government Earnings and Other Charges	Completed and in use
36	Fencing of The Pro-Chancellors Lodge	2011	2011	Extra Government Earnings and Other Charges	Completed and in use
37	Fencing of The Chancellors Lodge	2011	2011	Extra Government Earnings and Other Charges	Completed and in use
38	Extension of 11 KV Line, Installation of New 500 KVA, 11/0.415 KV Distribution Transformer and 415 Distribution Network to service the Vice Chancellor's, Pro-Chancellor's and Chancellor's Lodges	2011	2011	FGN CAPITAL 2011	Completed and in use
39	Fencing of the New Female Students' Hostel	2011	2012	Extra Government Earnings and Other Charges	Completed and in use
40	Construction of the Road from Health Centre to Vice Chancellor's, Pro-Chancellor's and Chancellor's Lodges and International Scholars and Resource Centre.	2011	2012	FGN CAPITAL 2011	Completed and in use
41	Construction of the Road from FUNAAB International School Junction to the Staff Nursery and Primary School	2011	2012	FGN CAPITAL 2011	Completed and in use
42	Construction of the Veterinary Teaching Hospital Complex	2011	-	FGN CAPITAL 2011	Ongoing
43	Construction of the Interlocking Paved Car Park at the New Female Hostel	2011	* 2012	Extra Government Earnings and Other Charges	Completed and in use

44	Construction of the Interlocking Paved Walkways and paving at the New Female Hostel	2011	2011	Extra Government Earnings and Other Charges	Completed and in use
45	Construction of 3000 Capacity Poultry Building at the Farm Centre	2011	2011	FGN CAPITAL 2011	Completed and in use
46	Construction of Ancillary Building (LOT 2) at the International Scholars and Resource Centre.	2011	-	Extra Government Earnings and Other Charges	Ongoing
47	Construction of Swimming Pool (LOT 1) at the International Scholars and Resource Centre	2011	-	Extra Government Earnings and Other Charges	Ongoing
48	Construction of Interlocking Paved Walkways at the Post Graduate School, College of Food Science and Human Ecology (COLFHEC) and Biotechnology Centre	2011	2012	Extra Government Earnings and Other Charges	Completed and in use
49	Construction of Interlocking Paved Walkways at the College of Environmental Resources Management (COLERM) Phase I, 2000 Capacity Lecture Theatre and Computer Laboratory.	2011	2012	Extra Government Earnings and Other Charges	Completed and in use
50	Construction of 1 No. Horseley Bridge Pressed Steel Elevated Water Tank for the Vice-Chancellor's, Pro-Chancellor's and Chancellor's Lodges	2011	2012	Extra Government Earnings and Other Charges	Completed and in use
51	Landscaping of the Vice-Chancellor's Lodges, Pre-Chancellor's and the International Scholars and Resource Centre	2011	2012	Extra Government Earnings and Other Charges	Completed and in use
52	Completion of Box and Pipe Culverts on 12KM Laterite Road From University Bus-Stop Via Farm Centre to INHURD (LOTA)	2011	-	Extra Government Earnings and Other Charges	Ongoing

53	Completion of Box and Pipe Culverts on 12KM Laterite Road From University Bus-Stop Via Farm Centre to INHURD (LOT B)	2011	-	Extra Government Earnings and Other Charges	Ongoing
54	Completion of Box and Pipe Culverts on 12KM Laterite Road From University Bus-Stop Via Farm Centre to INHURD (LOT C)	2011	-	Extra Government Earnings and Other Charges	Ongoing
55	Completion of Administrative Building at International Scholars and Resource Centre (Lot 1 : Outstanding Civil Works)	2011	2012	Extra Government Earnings and Other Charges	Completed and in use
56	Completion of Administrative Building at International Scholars and Resource Centre (Lot 2 : Roof)	2011	2012	Extra Government Earnings and Other Charges	Completed and in use
57	Completion of Administrative Building at International Scholars and Resource Centre (Lot 3 : Mechanical and Electrical Installations)	2011	2012	Extra Government Earnings and Other Charges	Completed and in use
58	Completion of Administrative Building at International Scholars and Resource Centre (Lot 4: Finishings)	2011	2011	Extra Government Earnings and Other Charges	Completed and in use
59	Construction of Kitchen Cabinets in the Chancellor's Lodge (Main Building, Charlot and Boys Quarters)	2011	2012	Extra Government Earnings and Other Charges	Completed and in use
60	Construction of Kitchen Cabinet in the Pro-Chancellor's Lodge (Main Building,Charlot and Boys Quarter	2011	2012	Extra Government Earnings and Other Charges	Completed and in use
61	Construction of Kitchen Cabinet in the Vice-Chancellor's Lodge (Main Building,Charlot and Boys Quarter	2011	2012	Extra Government Earnings and Other Charges	Completed and in use
62	Construction of Wardrobes in the Chancellor's Lodge	2011	2012	Extra Government Earnings and	Completed and in use

63	Construction of Wardrobes in then Pro-Chancellor's Lodge (Main Building, Charlet and Boys Quarters	2011	2012	Extra Government Earnings and Other Charges	Completed and in use
64	Construction of Wardrobes in the Vice-Chancellor's Lodge (Main Building, Charlet and Boys Quarters	2011	2012	Extra Government Earnings and Other Charges	Ongoing
65	Supply of LG Air-Conditioners	2011	2012	Extra Government Earnings and Other Charges	Ongoing
66	Supply of Samsung Air-Conditioners	2011	2012	Extra Government Earnings and Other Charges	Ongoing
2012					
1	Extension of 11KV, Installation of a new 500KV/0.415KV Distribution substation transformer and 415V Distribution Network to service COLMAS and 2,500 Seater Auditorium	2011	2011	Extra Government Earnings and Other Charges	Completed and In use
2	Construction of Interlocking paved road, car park and walkways at the Chancellor's Lodge	2011	2012	Extra Government Earnings and Other Charges	Completed and In use
3	Construction of road from the University fence to the end of Works and Services road	2011	-	Extra Government Earnings and Other Charges	On-going
4	Fencing of FUNAAB Staff Nursery and Primary School Lot 2	2012	2012	Extra Government Earnings and Other Charges	Completed and In use
5	Fencing of FUNAAB Staff Nursery and Primary School Lot 4	2012	2012	Extra Government Earnings and Other Charges	Completed and In use
6	Twins 2-bedroom flats for FUNIS and FUNAAB Staff Nursery	2012	-	Extra Government Earnings and	On-going
7	Extension of High Tension Electricity network from IFSERAR to INHURD	2012	2012	Extra Government Earnings and Other Charges	Completed and in use

8	Extension of High Tension Electricity network to INHURD Phase II	2012	2012	Extra Government Earnings and Other Charges	Completed and in use
9	Supply of Furniture (Furnishing and Electronics for accommodation building at the ISEC	2012	2012	Extra Government Earnings and Other Charges	Completed and in use
10	Supply of furniture (Hard furniture) for accommodation building at ISEC	2012	2012	Extra Government Earnings and Other Charges	Completed and in use
11	Construction of interlocking paved road, car park and walkways at the Vice-Chancellor's Lodge	2012	2012	Extra Government Earnings and Other Charges	Completed and in use
12	Construction of interlocking paved road, car park and walkways at the Pro-Chancellor's Lodge	2012	2012	Extra Government Earnings and Other Charges	Completed and in use
13	Supply of 3 Nos. 200KV Perkins (UK) Generators to University Library, Livestock Processing Complex and IFSERAR	2012	2012	Extra Government Earnings and Other Charges	Completed and in use
14	Supply of 3 Nos. 250KV Perkins (UK) Generators to Vice-Chancellor's, Pro-Chancellor's and Chancellor's Lodges, Unity building and INHURD	2012	2012	Extra Government Earnings and Other Charges	Completed and in use
15	Supply of 2 Nos 500KV Perkins (UK) Generators to ISEC and Postgraduate School Quadrangle comprising of Postgraduate School, COLFHEC, COLERM Phase II, 500 Seater Computer Laboratory, Proposed 3,000 Capacity Laboratories and	2012	2012	Extra Government Earnings and Other Charges	Completed and in use
16	Construction of Porter's Lodge at the new female hostel	2012	2012	Extra Government Earnings and Other Charges	Completed and in use

17	Construction of Shopping Mart at the new female hostel	2012	2012	Extra Government Earnings and Other Charges	Completed and in use
18	Construction of Bathrooms and toilet for FUNIS boys and girls hostels	2012	2012	Extra Government Earnings and Other Charges	Completed and in use
19	Fencing of the existing students hostel Lot 1	2012	2012	Extra Government Earnings and Other Charges	Completed and in use
20	Fencing of the existing students hostel Lot 2	2012	2012	Extra Government Earnings and Other Charges	Completed and in use
21	Fencing of the existing students hostel Lot 3	2012	2012	Extra Government Earnings and Other Charges	Completed and in use

7.5 Projects Inherited by the Current Vice-Chancellor

S/N	PROJECT	YEAR OF AWARD	DATE OF COMPLETION	SOURCE OF FUND	REMARK
1	Construction of 2500 Seater Auditorium	2010	-	FGN Capital Grant 2010 & Extra Government Earnings	<i>On-going</i>
2	Construction of 2000 Capacity Auditorium	2010	8 th November, 2012	ETF 2009/2010 (Merged) Intervention Fund	<i>Completed</i>
3.	Construction of Institute of Food Security, Environmental Resources & Agricultural Research Building (IFSERAR)	2010	28 th December, 2012	ETF 2009/2010 (Merged) Intervention	<i>Completed</i>

4	Construction of 500 Seater Central Computer Laboratory Building, 500 PC Hard Wares and related items.	2010	6 th November, 2012	ETF 2010(Special)	<i>Completed</i>
5	Construction of Zoological Garden	2010	19 th December, 2012	2010 ETF 2010 (Special)	<i>Completed</i>
6	Construction of Sports Complex (Phase 3) Grand Stand	2010	-	FGN Capital Project	<i>On-going</i>
7	Construction of Staff Nursery and Primary School	2011	-	Extra Government Earnings and Other Charges	<i>On-going</i>
8	Supply and Installation of Lecture Theatre Seats for Postgraduate School	2011	2011	Extra Government Earnings and Other Charges	<i>Completed and in use</i>
9	Construction of the Veterinary Teaching Hospital Complex	2011	-	FGN CAPITAL 2011	<i>On-going</i>
10	Construction of Ancillary Building (LOT 2) at the International Scholars and Resource Centre.	2011	-	Extra Government Earnings and Other Charges	<i>On-going</i>
11	Construction of Swimming Pool (LOT 1) at the International Scholars and Resource Centre	2011	-	Extra Government Earnings and Other Charges	<i>On-going</i>
12	Construction of Interlocking Paved Walkways at the Post Graduate School, College of Food Science and Human Ecology (COLFHEC) and Biotechnology Centre	2011	2012	Extra Government Earnings and Other Charges	<i>Completed and in use</i>

20	Construction of Road from the University Fence to the End of Works and Services Road	2011	-	Extra Government Earnings and Other Charges	<i>On going</i>
21	Construction of Student Hostel Block A	2011	2011	Extra Government earnings and Other Charges	<i>Completed and in use</i>
22	Construction of Student Hostel Block B	2010	23 rd October, 2012	FGN Capital 2010	<i>Completed</i>
23	Twin 2 – Bedroom Flats for FUNIS and FUNAAB Staff Nursery & Primary School	2012	8 th February, 2013	Extra Government earnings and Other Charges	<i>Completed</i>
24	Construction of Interlocking Paved Road, Car Park and Walkways at the Vice - Chancellor's Lodge	2012	2012	Extra Government earnings and Other Charges	<i>Completed and in use</i>
25	Construction of Shopping Mart at Public Relation Unit	2011		Extra Government earnings and Other Charges	<i>on-going</i>

8.0 GENERAL ADMINISTRATION

8.1 VICE-CHANCELLOR'S OFFICE

The Chief Executive and the Vice-Chancellor of the Federal University of Agriculture, Abeokuta, who is in charge of its day to day running of the University is Professor Olusola Bandele Oycwale. He is also the Accounting Officer statutorily appointed for a single term of five years by the Governing Council to provide sound academic and administrative leadership and direction. The Vice-Chancellor is assisted by two Deputies Deputy Vice-Chancellor (Academic), Prof. T. A. Arowolo and Deputy Vice-Chancellor (Development), Prof. F. K. Salako. Three other Principal Officers assist the Vice-Chancellor in running some segments of the University. They are the Registrar, Mr M. O. Ayoola, the Bursar, Mr. M. O. Ilesanmi and the University Librarian, Dr. (Mrs) M. O. Salaam. Other Units working in concert under the directives of the Vice-Chancellor include:

1. Academic Planning
2. Physical Planning
3. Student Affairs
4. Students' Industrial Work Experience Scheme (SIWES)
5. Information and Communication Resource Centre (ICTREC)
6. Public Relations
7. Centre for Internalization and Partnership (CENIP)
8. Environmental Management
9. Internal Audit
10. Industrial Park
11. Procurement
12. Sport
13. Community Based Farming Scheme (COBFAS)
14. Centre for Entrepreneurial Studies (CENTS)
15. Environmental
16. Pension Administration
17. Grants Management
18. FMENV/FUNAAB Linkage Centre
19. Advancement Office

Research and Academic Development

The academic profile of the University has soared tremendously in the last few years. A major re-engineering was witnessed as curricula were reviewed, leading to the carving out of a new College of Food Science and Human Ecology (COLFHEC) and College of Agricultural Management and Rural Development (COLAMRUD) from the erstwhile College of Agricultural Management, Rural Development and Consumers Studies (COLAMRUCS). Two new Departments, of Agricultural Administration and Food Science and Tourism, were consequently established.

Having improved drastically on academic facilities, whereby stipulated criteria were not only achieved, but surpassed in the provision of basic requirement, full accreditation had been offered all University programmes. Moreover, with the directives of the Federal Government to specialize Universities and Monotechnics to diversify their academic programmes, the Federal University of Agriculture, Abeokuta has established the College of Management Sciences with the Departments of Accounting, Banking and Finance, Business Management, Economics and Entrepreneurial Studies.

Graduate Farming Employment Scheme

In 2008, the University established a Graduate Farming Employment Scheme (GRADFES),

which is a Farm Settlement Programme to assist unemployed graduates of the University in owning their individual farms through the provision of a collateral-free loan and farmland on the Campus. The scheme took-off with 10 participants granted a sum of N250,000.00 each, interest-free with free farmland, prepared by the University for the production of maize, cowpeas, soyabeans and other varieties of crops. The loan is rolled-over within five years, with a year moratorium, before the principal is paid back into the scheme's Revolving Account.

The University provides a ready market for harvests from GRADFES. Apart from this, the University also assists in mechanizing the scheme by procuring tractor, plough, harrow, harvester and grain-sheller. A dedicated borehole was sunk to provide water and silos for harvest preservation. Participants enjoy the opportunity of using their proceeds to negotiate for bigger credit facility with commercial banks in order to maximize the economic potentials of the scheme. A monitoring committee supervises and reports on the scheme, periodically.

Administrative Reforms

The Vice-Chancellor, in his proactive manner created Additional Directorates as a panacea to noticeable stagnation in the workforce and also to prevent brain-drain as well as improving on service delivery. He created a novel Directorate system in the Registry and Bursary Departments of the University, with the appointments of hitherto stagnating Deputy Registrars/Bursars on the same Grade Level with the Registrar and Bursar.

- (i) Registry: He created four Directorates viz Council Affairs, Academic Affairs, Establishment Affairs and Executive Affairs (Vice-Chancellor's Office);
- (ii) Bursary: He created three Directorates viz Treasury, Budget and Expenditure Control, and Final Accounts and College Finance;
- (iii) Created a full-fledged Directorate of Public Relations which has largely enhanced the process of information management and public image of the University;
- (iv) Creation of the Directorate University Farm (DUFARM) to promote agricultural education and service for agricultural development;
- (v) Establishment of Industrial Park Unit (IPU), a Centre in charge of commercial production, processing and marketing of agricultural produce such as palm oil, cashew nuts, honey, palm wine, *garri*, deodorized *fufu* flour, etc.

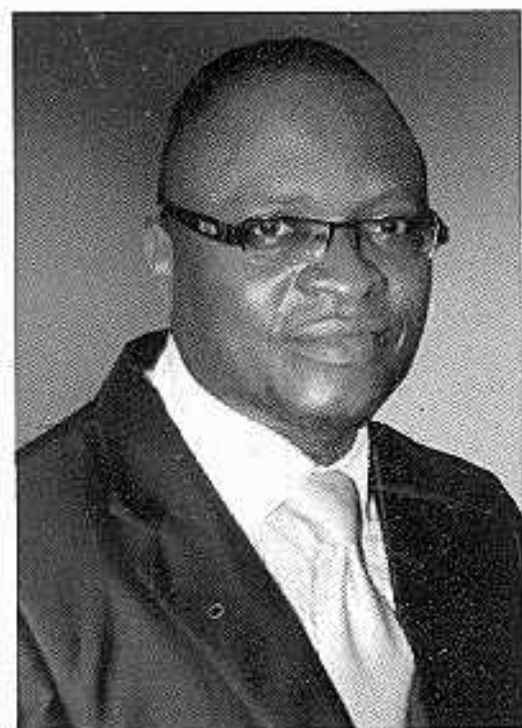

Increase in Financial Fortune

The Vice-Chancellor has brought fortune to the University through his wealth of experience in prudent financial management. Such shrewd ability and pro-activeness in judiciously utilizing scarce resources has earned him deep respect and confidence to entrust fund in his care. This has indeed translated into tremendously development in infrastructure.

Extra Government Earnings, EGE

The improved profile of the extra government earnings by the Vice-Chancellor has enabled the University to meet varying academic and social demands. Utilization of funds generated under this scheme is demonstrated on the various projects.

8.2 ACADEMIC PLANNING UNIT (APU)

**Professor M. A. Waheed,
Director APU**

development and proliferation of programmes and units in the University System. APU is also to handle the collection and management of data and information to guide the academic development of university while ensuring the compliance of the institution and the units under it with NUC's Academic Standards and with the university Senate's academic requirements.

ACTIVITIES AND ACHIEVEMENTS OF THE UNIT

Publication of Statistical Digests

The Unit publishes Statistical Digests annually to provide relevant statistical information on various sections within the University such as the different academic programmes being run at undergraduate and the postgraduate levels and their accreditation status, disposition and distribution of students and staff in the existing departments. The Unit has successfully and consistently produced the digest with the sixth edition unique in all respects.

Institutional Accreditation

The National Universities Commission (NUC) in its drive towards Quality Assurance undertook Institutional Accreditation and Ranking of Nigerian Universities. Consequently, the University was visited between December 5 and 8, 2011 by the NUC for Institutional Accreditation. The Academic Planning Unit produced the Self-Study Document that was used

The National Universities Commission (NUC) on realization of the fact that institutions are responsible for the quality of education they offer proposed and established the Academic Planning Unit (APU) in Nigerian universities in the early 1980s.

Establishment of the Unit was in response to the need to coordinate and streamline the academic policies and activities arising from sudden and sometimes uncoordinated growth,

for the exercise and coordinated the accreditation exercise. The University got 76.5%, a Grade A, which earned the University a full institutional accreditation status that will last for seven (7) years.

Resource Verification of COLMAS

The National Universities Commission carried out the Resource Verification Exercise of Programmes in the newly established College of Management Sciences on 20th October, 2011. The Academic Planning Unit coordinated and facilitated the activities of the Team with the result that the visited Programmes got approval to commence academic activities and instead of four Programmes, five were approved by NUC. The Programmes approved were Accounting, Business Administration, Banking and Finance, Economics and Entrepreneurial Studies.

Coordination of COREN Accreditation Visit

The Council for the Regulation of Engineering in Nigeria (COREN) carried out Accreditation Exercise of the Engineering Programmes of the University between 29th July and 2nd August, 2012. The Academic Planning Unit coordinated and facilitated the activities of the Team with the result that the visited Programmes viz. Agricultural Engineering, Civil Engineering, Electrical/Electronic Engineering and Mechanical Engineering got Full Accreditation from COREN.

Academic Brief

The Academic Brief is conceived as a tool for planning, decision-making and policy formulation at all stages of the development of the Federal University of Agriculture, Abeokuta. It defines the philosophy and objectives of the University and sets out the administrative structure, the academic and out-reach programmes and the developmental strategies for achieving these objectives. The Academic Planning Unit alerted University Management on the need to review the University's Academic Brief which was due for review in 2010. Consequently, Management set up a Committee made up of senior academics to review the document. The Committee has completed its assignment and is at the point of submitting its report to Management.

Mock Resource Verification

The Unit carried out mock resources verification exercise for two new programmes namely, Agricultural Administration in the College of Agricultural Management and Rural Development, and Foodservice and Tourism in the College of Food Science and Human Ecology between 22nd and 23rd September, 2010 in preparation for the NUC visitation for the resources assessment of the programme. The resource verification exercise of the programmes was done between 26th and 27th May, 2011 and they were subsequently approved by NUC to run.

Mock Accreditation

The Unit conducted mock accreditation exercises for eighteen (18) programmes which were due for the NUC Accreditation between 2010 and 2012. These included programmes due for visit in 2010: Biochemistry, Biological Sciences, Chemistry, Computer Science, Mathematics, Microbiology, Physics, Statistics, Civil Engineering, Electrical/Electronic Engineering, Aquaculture and Fisheries Management and Food Science and Technology. Also, 3 programmes, Agriculture, Forestry & Wild-Life Management and Home Science & Management and 2 programmes due for accreditation in 2011 and Nutrition & Dietetics and Water Resources Management and Agricultural Meteorology were made to undergo mock accreditation to also prepare them for NUC Accreditation.

Data Bank

Major activities of the Unit centre on careful collection, handling, analysis and interpretation of data from various sections and on changing trends within the University. The data so generated are periodically updated to assist the management in annual planning. Within the past year, the Unit has been able to update the University's Full-Time Equivalent (FTE), the graduate output, students' enrolment, and update of both academic and non-academic staff disposition. The actual and expected ratio of teacher to students and the University carrying capacity were also calculated. Table 18 presents type of data being generated and their usefulness to the University Management.

Table 18: Data Type, Collection, Analysis and Usefulness

S/No	Data Generated	The Usefulness to the Management
1	Students Enrolment by; *gender *state of origin *mode of entry	To ensure that the University complies with the NUC approved guideline on catchment areas and expected enrolment capacity based on available human and facility resources.
2	Full-Time Equivalent (FTE) and Carrying Capacity (CC)	For the allocation of resources and space within the system and also for the evaluation of Student-Teacher ratio to determine vacancies.
3	Graduate output by; *Class of Degree *Gender	Analysis of students' performance across the departments, colleges and gender streams.
4	Academic Staff Disposition by; *Sex *Department *Area of Specialization	Determination of Academic Staff vacancies and the evaluation of Student-Teacher ratio as well as allocation of space within the system.
5	Performance in university wide-courses and Attrition rates	Analysis of student performance across the departments and colleges of the University and to evaluate the drop-out rate
6	Accreditation Status of Programmes.	To adequately prepare the University and its academic units for accreditation and re-accreditation purposes. This is achievable through the conduct of mock accreditation exercise and sharing of Self Study Form (SSF)
7	Students growth rate since inception	Useful in regulation of students' intake.
8	Non-Academic Staff Disposition by; *Designation *Posting *Sex *Qualification *State of Origin	To determine Non-Academic Staff vacancies.

Other activities

The Academic Planning unit liaises on a regular basis with the National Universities Commission (NUC) to disseminate information and providing routine data from the University such as on the University Systems Annual Review Meeting (USARM) which holds yearly. The Unit also provides the required information and assistance relating to academic matters to various departments within the University and gives adequate support during examination processes. The Unit is regularly engaged in carrying out various vital assignments for the University.

**Mr. O. P. Somoye,
Deputy Director and Head**

The Directorate of Public Relations became a full-fledged Directorate in 2008. It is basically responsible for information management and dissemination as well as the establishment and sustenance of mutual interactions between the University and its publics.

The Directorate is structured into three Units, namely: Media and External Relations; Protocol and Passages; and Technical.

ACTIVITIES/PROJECTS CARRIED OUT

1. **Production of Weekly FUNAAB Bulletin:** This involves the production and circulation of the FUNAAB's Weekly Bulletin, which chronicles the major activities of the University.
2. **Community Relations:** Maintenance of mutual community relationship with relevant public media, parents, host community, opinion leaders, etc.
3. **Photography/Video Coverage:** Coverage of University-wide programme, through the use of modern equipment in the production of photography and video materials.
4. **Production of FUNAAB News Magazine:** Production of the yearly University magazine.
5. **Production of Handbills, Banners, Posters and Notice boards:** To disseminate University information to target audience.
6. **Processing of entry visas and flight tickets for University officials/students:** Providing effective visa assistance and processing of flight tickets for University officials and students, as well as airport reception for important guests.
7. **Administration of Gesture:** The Directorate facilitates and coordinates the distribution of gesture items to internal and external publics of the University.
8. **FUNAAB Souvenir Shop:** Floating of a University Souvenir Shop to sell items as mementoes, newspapers, magazines and topical publications. This is part of the income-generating drive of the Directorate.
9. **FUNAAB FM Radio:** To commence the broadcast of community radio, to help the University achieve its tripartite mandates, of teaching, research and outreach services.
10. **Acting as interface between the University and the mass media.**

ACHIEVEMENTS

- i. Production of high quality Bulletin of about 500 copies weekly circulated to Council Members, Principal Officers, Deans, Directors, HODs/HOU's and friends of the University. Also, the Bulletin is pasted on notice boards around the campus.
- ii. The Directorate serves as veritable medium of reporting major events and activities of the University.
- iii. It has also been able to maintain and sustain cordial atmosphere between the University and its publics.
- iv. Pictorial cataloguing of major University events for posterity.
- v. Reaching-out, through the production of handbills and posters to members of the University and its environs.
- vi. Hoisting of news, events and other information items on the FUNAAB's website: www.unaab.edu.ng.
- vii. Placement of advertisements and advertorials in national newspapers and the Federal Tenders' Journals for contracts, bids, vacancies, etc.
- viii. The Directorate has also played a major role in the processing/fastracking of entry visas for various University officials and students, as well as airport reception for important guests.
- ix. Coordination at various University events, by providing anchoring services and Protocol arrangements for major guests.
- x. Positive media mentions and coverage of development and issues on the University
- xi. Booking of accommodation and provision of hospitality for visiting guests to the University.
- xii. Successfully supervised and coordinated various publications in the University, such as the "Mission Accomplished", Valedictory Lecture of the past administration and "Compilation of Tributes, Speeches and Commendations Delivered at the Valedictory Programmes in Honour of Professor Oluwafemi Olaiya Balogun", the out-gone Vice-Chancellor.
- xiii. The Directorate has been able to engage in commercial activities through the sale of University items such as mementoes, newspapers, magazines and interesting publications, through the FUNAAB Souvenir shop, which also serves as an income-generation initiative.
- xiv. The Directorate facilitates and coordinates the distribution of gesture items to internal and external publics of the University.

FUNAAB SOUVENIR SHOP

ITEMS ON DISPLAY AT FUNAAB SOUVENIR SHOP

ITEMS ON DISPLAY AT FUNAAB SOUVENIR SHOP

**Prof. V. A. Onifade,
Dean Student Affairs**

Communication and Inter-Personal Relationship with Students

There is a good working relationship between the students and the entire staff of the Student Affairs Division. The staff members, in relating with the students act as 'Locus parentis' to the students. Also as a matter of cardinal principle, staff members of the division do not shout or pass insults on students. The students on the other hand usually approach staff of the University with a reasonable level of courtesy, respect and humility.

In the Administration's effort to bridge any possible communication gap, the Vice-Chancellor is kind enough to make his telephone numbers available to all the students. This kind gesture of the Vice-Chancellor has assisted the system to avert a lot of crisis.

Protection of Students from Sexual or any Form of Harassment

The University Management has zero-tolerance for indiscipline at any level. Hence, adequate measures are put in place to prevent and deal with cases of sexual or any other form of harassment. It is interesting to note that the University, to a very large extent, is noted for having good students with a high standard of academic and moral status.

Youth Organisation Support

During the years under reference, the Unit encouraged the selfless contributions and services to humanity rendered by the Man-O-war, Road Safety and Nigerian Red Cross Society to the entire University community.

Bursary and Scholarship

Processing of Bursary and Scholarship for students is an integral part of activities carried out in the Student Affairs Unit. All issues relating to Bursary and Scholarship are given utmost attention including generation of list of potential students for the awards.

The Student Affairs Unit is under the Vice-Chancellor's Office. The Unit is responsible for students' welfare and discipline. The Unit provides services which include, among others, students' counseling, Sports activities, Students' accommodation, orientation for fresh students, mobilization of students for NYSC, financial assistance through bursary and scholarship award and general administration. The Unit is headed by the Dean of students who is assisted by the Deputy Dean while the Principal Assistant Registrar (Students) heads the Administration.

The Unit wishes to place on record the contributions of the Vice-Chancellor, Professor Olusola Bandele Oyewole, to the peace and stability enjoyed in the University. The University, on different occasions, has been declared the most peaceful higher institution particularly, in Ogun State. This great feat was achieved through the Vice-Chancellor's pragmatic and proactive approach to the Students' welfare.

8.5 DIRECTORATE OF ENVIRONMENTAL MANAGEMENT (DEM)

**Mr. E. A. Bankole,
Director of DEM**

The Directorate is saddled with the responsibility of developing and enhancing the natural and physical landscape of the university campus to achieve cleaner, healthier and aesthetic environment conducive for learning, research and social wellbeing of all within the university community:

The Directorate has two major units that implement the above vision and mission statement:

- Parks and Garden Unit (Landscaping, Parks Establishment and Beautification, Plant Nursery)
- Sanitation Unit (Waste Management, Building Cleaning, Drainage and Roads Clearing, Fumigation and Pest Control)

The implementation arrangement of the Directorate is through zoning of the University campus into 13 operational zones with average crew size of 8 - 10 casual workforce, who operate the machines or use hand tools to manage the turf. In the last 3 years, the Directorate through its Parks and Garden Unit

has carried out the landscaping of the following facilities within the University, Postgraduate School, COLFHEC, Biotech Lab, INHURD, International Scholars and Resource Centre, Executive Lodges, Unity Buildings, Bus Station, Central Car Park, 2000 Auditorium, 500 Computer Centre, Farm Centre, 2500 Auditorium environs, Sports Centre and the expansion and standardization of the Plant Nursery. In 2012 alone, a total of 2150 assorted tree seedlings as well as hedges along the various walk/drive ways have been planted to greatly increase the campus tree canopy and enhance the plant bio-diversity.

The Sanitation Unit of the Directorate adopts both the direct and in-direct approach towards managing the waste, clean the buildings as well as manage pests and rodents through fumigation and adoption of other control measures. Private Service Providers (PSPs) or External Contractors manage the daily cleaning of all buildings in the different zones as well as waste evacuation and disposal. There are sweepers and pickers who are also casual workers and who work to keep the campus landscape clean and neat.

Aerial view of the Main entrance of the University

Aerial view of the Ceremonial Road

Side view and surrounding lawn of the University Library

Side View of the Administrative Office of the International Scholars Resource Centre

The Directorate fosters collaboration and cooperation with the Department of Horticulture of the University for Practical Exposure for mutual benefit. The platform for the acquisition of practical experience for both undergraduate and postgraduate students of horticulture has been created. Within this reporting period, five postgraduate students have benefited from practical experience in plant nursery operations and landscape establishment. Four postgraduate students of Horticulture were engaged as supervisors for landscape development projects in 2011/2012. Another six postgraduate students received lectures and hands-on experience on Machinery and Equipment for Ornamental Horticulture and Rehabilitation of Landscapes in 2012. Two part-time students are also currently engaged as casual Supervisor in the Sanitation Unit.

Side View of the 2000 Capacity Lecture Theatre and Adjoining Car Park

The challenges faced by the Directorate in implementation of its projects include:

- Non-Involvement of the Directorate by the Physical Planning Unit (PPU) of the University in the conceptualization, designs and implementation of buildings and landscape projects for the University.
- Lack of Operational guidelines and enforcement for all categories of contractors executing various projects on the University landscape, which infringe on the work of others especially the Directorate's main operations leading to trampling of established lawns, abandonment of unused construction materials on sites and piling of debris by different contractors engaged for projects supervised by the PPU.
- Water supply and distribution especially during the dry season pose serious challenges to the maintenance of ornamental plants and lawns.
- Lack of proper perception of the greening initiative by some member of the University Community and appreciation of the huge cost involved in

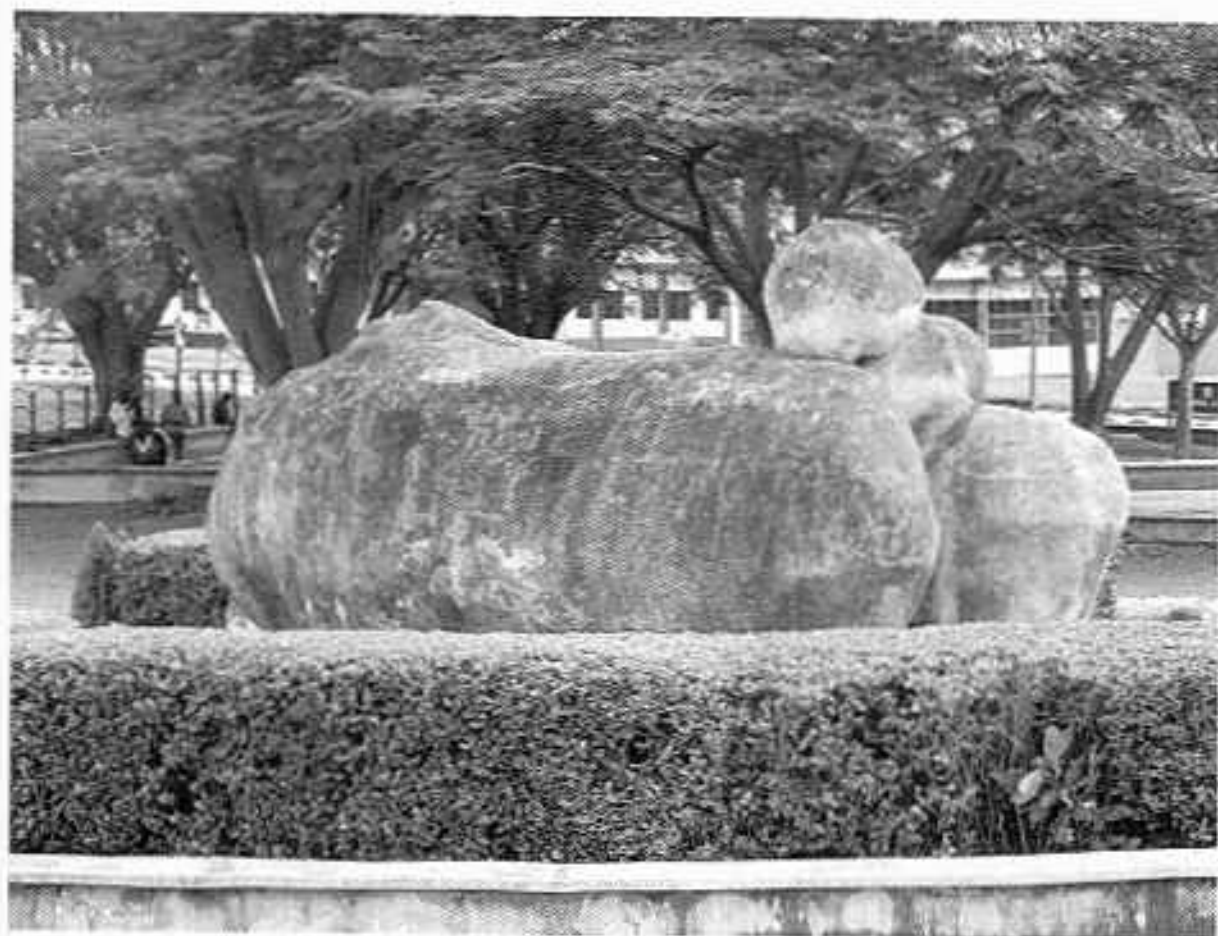

sustaining it.

The several initiatives of the Directorate of Environmental Management towards creating an enabling Campus environment have earned the University (FUNAAB) commendations in several quarters. FUNAAB'S campus environment has suddenly become toast of every lover of greenery and beautification. The aesthetics and value addition of the landscaping (well-kept lawns, trees, shrubs and hedges), cannot be quantified.

It is no longer the Nokia phone alone that connects people, Trees are connecting people at FUNAAB for different purposes.

Back view of Senate House showing the surrounding green lawns

'Olumo Rock'

The environment of FUNAAB earned it full marks at the last institutional accreditation conducted by NUC.

The essential sustainability elements for the Directorate's Greening and Beautification Initiatives are:

Adequate Manpower (Skilled, Semi-skilled & Unskilled) these are the Professional Officer cadre, Technical and the Labour force.

- Adequate machinery and equipment for the operations in the classified 13 Campus zones.
- Sustainable funding arrangement to cater for operational expenses; (labour wages, fuel & lubricants, spare parts procurement, repairs and maintenance of equipment as well replacement where necessary).

FUNAAB is a model campus that enhances learning, research, social wellbeing and livelihood, the Directorate should be properly positioned to fulfil its mandate.

8.6 ALUMNITUNIT

The contributions and supports of the Alumni of the Federal University of Agriculture, Abeokuta in the 2011/2012 were better than the previous years and cannot be under-rated.

The Alumni Association did some philanthropic supports to the needy students and alleviated the suffering of indigent students in FUNAAB. The right support to fellow member of the Alumni and some FUNAAB students were also put in place.

The hallmark of the achievement of the Alumni of the Federal University of Agriculture, Abeokuta was the recent completion of her Ultra-modern building (Alumni Centre), the rare of its kind on Nigerian Universities Campuses. Usually universities provide office accommodation for the Alumni Unit, but the Alumni of the Federal University of Agriculture, Abeokuta had gone an extra mile by building a Centre to complement the efforts of the University Management in making FUNAAB a world class.

The Alumni of the Federal University of Agriculture, Abeokuta extended its philanthropic arms to the indigent students by paying the school fees of a good number of indigent students.

The Alumni Association observed with passion the suffering of some students especially shortly before the commencement of each semester examination and made food intervention (support) for some needy students. More so, some students that couldn't afford stationeries for their academic work were not left un-catered for, they were equally supported with fund. The Alumni of the Federal University of Agriculture, Abeokuta also supported the FUNAAB sports contingent to the 2012 Nigerian Universities Games (NUGA) with the sum of Five Hundred Thousand Naira only (N500, 000:00) and the award of the sum of Five hundred thousand Naira only (N500, 000:00) was also given to the best graduating physically challenged students (Male and Female) at the last convocation ceremony.

The Alumni Association of the Federal University of Agriculture, Abeokuta did not stop at the FUNAAB undergraduate and postgraduate levels but went extra mile to arrange career talks for the students of the FUNAAB International School to assist them in making a wise choices in their future academic pursuit.

It is also important to bring to limelight that the Alumni Association of the Federal University of Agriculture, Abeokuta supported some of her members in need or those facing some challenges.

The Alumni of the Federal University of Agriculture, Abeokuta is usually well represented and a voice to reckon with at the Committee of the Alumni (Conference of Alumni Associations of Nigerian Universities). The Alumni of the Federal University of Agriculture, Abeokuta is great and has potential to be greater in the nearest future.

9.0 BUDGETARY AND FINANCIAL MATTERS

The issues relating to Budget and Finance of the University are the responsibility of the Bursary Department. In the year under review, the Bursary Department performed creditably well in their handling of financial matters of the University. The Head of the Bursary Department is the Bursar, who is the Chief Financial Officer of the University and is responsible to the Vice Chancellor for the day to day administration and control of the financial affairs of the University.

The Bursary Department is made up of the Bursar's Office, the Directorate of Treasury, the Directorate of Expenditure Control, the Directorate of Investment and Insurance, the Directorate of Final Accounts and the Directorate of Statistics. The Department has been structured to address the various functions associated with the components of financial management as follows:

- i. Annual Estimates
- ii. Budgets and Budgetary Control
- iii. Accounts and Accounting Records
- iv. Receipts and Accounting for the Income of the University
- v. Payments to Staff and Third Parties
- vi. Banking
- vii. Insurance
- viii. Fund Management
- ix. Preparation of Annual Final Accounts for External Audit

9.6 THE UNIVERSITY'S AUDITED FINANCIAL REPORT

9.6.1 THE UNIVERSITY'S AUDITED FINANCIAL REPORT FOR 2010

AUDITOR'S REPORT TO MEMBERS OF UNIVERSITY OF AGRICULTURE, ABEOKUTA (UNAAB)

We have audited the Financial Statements for the Eighteen (18) months period ended 31 December, 2010 as set out on pages 6 to 27 which have been prepared under the historical cost convention and in accordance with accounting policies set out on pages 4 to 5.

RESPECTIVE RESPONSIBILITIES OF GOVERNING COUNCIL OF UNAAB AND AUDITORS

The Governing Council is responsible for the preparation of the financial statements and ensures that adequate internal control procedures are instituted to safeguard assets, prevent and detect fraud and other irregularities; proper accounting records are maintained; and applicable standards are followed. It is our responsibility to form an independent opinion, based on our audit, on the financial statements and report our opinion to you.

BASIS OF OPINION

We conducted our audit in accordance with International Auditing Standards. An audit includes examination, on a test basis, of evidence, relevant to the amounts and disclosures in the Financial Statement. It also includes an assessment of the significant estimates and judgements made by the Members in the preparation of the Financial Statements and whether the Accounting policies are appropriate to the University's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary to provide us with sufficient evidence to give a reasonable assurance that the Financial Statements are free from material misstatements, whether caused by fraud, error or other irregularities.

In forming our opinion, we also evaluated the overall adequacy of the presentation of information in the Financial Statements and assessed whether the University's books of accounts had been properly kept.

OPINION

In our opinion, and to the best of the information and explanations given to us, the books of accounts give a true and fair view of the state of the affairs as at 31 December, 2010 and of the excess of Income over Expenditure and cash flow together with the Accounting policies and notes on the accounts have been properly prepared in accordance with the relevant statements of accounting standards issued by the Nigerian Accounting Standards Board.
