

# **FWM 405: AGROFORESTRY PRACTICALS**

**LECTURER:**

**PROF. M. O. ADEDIRE**

**Prof. of Agroforestry & Forest Ecology**

**Department of Forestry and Wildlife Management**

**University of Agriculture, Abeokuta**

**P. M. B. 2240**

**Abeokuta**

As a practical course, students are taken to the field and taught how to establish various agroforestry farms.

They are then divided into groups. Each group will be expected to establish and manage a type of agroforestry farm.

Students are then asked to write a detailed report of how the agroforestry farm was established and managed.
