He has accolades of awards: Senate Annual Prize for the Overall Best Graduating Student in the College of Animal Science and Livestock Production and College Award (2007/2008), Senate Annual Prize for First Class Honours Graduating Student (2007/2008), Ogun State Printing Corporation for Best Graduating Student in College of Animal Science and Livestock Production, Best Outgoing Student, College of Animal Science and Livestock Production, Nigeria Animal Science Students' Association (NASSA) award in 2007/2008.

Dr. Ekunseitan research interests is in Animal Health with special preference to Phytobiotics: Alternative options and interventions in disease control of poultry using locally available plants (Currently using *Lagenaria breviflora* and *Petiveria alliacea*) and Production systems modifications as means of alleviating various effects of stress in non-ruminant animals and promotion of organic products. He worked in producing a novel product for replacement of conventional ingredient (Soybean meal) using market and abattoir wastes during his Masters' of Agriculture programme under the tutelage of Prof. O.O. Balogun (Past Vice-Chancellor, FUNAAB).
