ABEOKUTA, OGUN STATE, NIGERIA

# STATISTICAL DIGEST

# AND REPORTS

DECEMBER, 2009

Published by

**ACADEMIC PLANNING UNIT** 

**Vice-Chancellor's Office** 

#### Overview

This production is the third edition of the University's Statistical Digest and Reports. It is an improvement over the second edition. It contains institutional information and highlights some gender aspects of the University statistics. Besides presentation of analysed 2009 data on staff and students, accreditation status of our undergraduate academic programmes are highlighted.

I hope the various Departments and Units within the University would find the information contained in this edition useful in their Planning and decision making processes.

#### Professor K.A. Okeleye

Director, Academic Planning Unit,

UNAAB, Abeokuta.

#### INTRODUCTION

The second edition of the Statistical Digest and Reports was published in 2008 and it contained the status of programmes run in the University, students and staff analysis and some other information that has become useful to all stakeholders.

The last one year has witnessed changes in some of the information given in the publication that needs to be put in proper perspectives. Three (3) programmes namely: Environmental Management and Toxicology (EMT), Water Resources Management and Agricultural Meteorology Nutrition and Dietetics were visited and given full accreditation status by the National Universities Commission (NUC). Programmes in Engineering and Veterinary Medicine that had interim accreditation status were re-visited and granted full accreditation.

During the year, the University Senate approved the splitting of the Academic Planning Unit into two sections, namely, the Internal Quality Assurance and the Resource Planning Sections. This became necessary in view of the new thrust of the National Universities Commission to improve education in and ranking of Universities by addressing issues like Quality Assurance and Institutional Accreditation.

In preparation for the new direction, the Unit organized a Step-Down Workshop on University Ranking and Institutional Accreditation, to sensitize the University community. The University Management has also deployed appropriate strategies to see to it that Quality Assurance and Institutional Accreditation receive the deserved attention.

The Full-Time Equivalent (FTE) of Departments for the current session 2008/2009 has been calculated and it formed part of the basis for the analysis in this revised edition.

You will surely find this publication interesting. Please be free to make your comments and observations on this publication to Academic Planning Unit and you can be sure it will be given the attention it deserves.
