

Francis Abiodun OLAOLORUN

1. Department: Veterinary Anatomy
2. Email address: olaolorunfa@funaab.edu.ng
3. Phone number: 07069313302
4. Rank: Lecturer I
5. Designation:
6. Research gate address
7. LinkedIn address
8. Google scholar profile
9. ORCID number: <https://orcid.org/0000-0002-2708-1627>
10. Qualification: D.V.M, M.Sc.
11. Membership of professional bodies: NVMA, ISN
12. Award received
13. Research conducted
14. Conferences attended
15. Publications:
 - 15.1. Olaolorun, F. A., Olopade, F. E., Usende, I. L., Lijoka, A. D., Ladagu, A. D., and Olopade, J. O. (2021). Neurotoxicity of Vanadium. *Advances in Neurotoxicology*, 5: 299-327. Available online at <https://doi.org/10.1016/bs.ant.2021.01.002>
 - 15.2. Mustapha, O., Ezekiel, O., Olaolorun, F.A, Awala-Ajakaiye, M., Popoola, E., Olude, M., and Olopade, J. (2020). Morphological Characterization of the Developing Greater Cane Rat (*Thryonomys swinderianus*) Brain. *Developmental Neuroscience*, 42(2-4), 114-123. Available at online at <https://doi.org/10.1159/000510848>
 - 15.3. Ohiomokhare, S., Olaolorun, F.A, Ladagu, A.D, Olopade, F.E, Howes, M. J. R., Okello, E., Olopade, J.O, and Chazot, P. L. (2020). The Pathopharmacological Interplay between Vanadium and Iron in Parkinson's Disease Models. *International Journal of Molecular Sciences*, 21(18), 1-15. Available online at <https://doi.org/10.3390/ijms21186719>
 - 15.4. Fatola, O.I., Olaolorun, F.A., Olopade, F.E., and Olopade, J.O. (2019) Trends in Vanadium Neurotoxicity. *Brain Research Bulletin*, 145:75-80. Available online at: <https://doi.org/10.1016/j.brainresbull.2018.03.010> PMID: 29577939
 - 15.5. Mustapha O.A., Ajadi T.A., Mustapha O.O., Olaolorun F.A., Popoola E.S., Olude M.A. and Olopade J.O. (2019). Sonographic Features of Gestation in the Developing Greater Cane Rat (*Thryonomys swinderianus*). *Bulletin of Animal Health and Production in Africa* 67(3): 247-254. Available online at www.ajol.info
 - 15.6. Olaolorun, F.A., Obasa, A.A, Balogun, H.A, Aina, O.O., and Olopade, J.O. (2014) Lactational Vitamin E Protects Against the Histotoxic Effects of Systemically Administered Vanadium in Neonatal Rats. *Nigerian Journal of Physiological Sciences*, 29(2):125-129 PMID: 26196578
