AJAYI, Olutayo Bamidele.

DATE OF BIRTH: 4th May, 1967

NATIONALITY: Nigerian

SEX: Male

MARITAL STATUS: Married

PROFESSION: INFORMATION TECHNOLOGY SPECIALIST/SYSTEM PROGRAMMER

More than twelve years of extensive and comprehensive studies and practical experience in Information and Communication Technology advancement. I have a good understanding of Relational Database Management Systems and Object Oriented Technologies, their constructions and functionality as applied to information systems. I am able to use various analysis methods, tools and technologies with due regard to business requirements. I also have a good understanding of Data Warehousing, Supply Chain Systems and Forecasting Systems. I can demonstrate strong analytical skills to produce test plans approaching database and Internet Technologies. I am motivated by close client contact and team based project environments.

WORKING EXPERIENCE (Professional)

I. University of Agriculture, Computer Centre, Abeokuta

Post: Ag. Director, ICT Resource Centre

Period: October, 2017 – July, 2023

Post: Lecturer 1 and Acting Head, ICT Resource Centre

Period: August 2012 – March, 2017

Post: Chief System Programmer and Head, Project Development Unit

Period: June 2011 – August, 2012.

Post: Chief System Programmer and Head, Network and Internet Services Unit

Period: March 1995 – June, 2011.

Duties:

1. Oversees administration of networks.

- a. Designs, manages and maintains LAN network router and switches, Mikrotik application and EduPortal data server and remote access devices;
- b. Develops and monitors system security procedures to protect the system from physical harm, viruses, unauthorized users, and data damage;
- c. Conducts the installation, configuration and maintenance of servers, network hardware and software;
- d. Establishes and maintains network user profiles, user access information, directories, and security.

2. Provides system support.

- a. Implements and maintains connectivity standards allowing PCs to communicate with network and server applications;
- b. Maintains a technical inventory of current configuration of all servers, PCs, printers and software installations;
- c. Prepares and maintains accurate and detailed problem/resolution records.
- d. Tracks frequency and nature of problems;
- e. Assists other units with second-level user support when necessary.

3. Performs additional duties as needed.

- a. Provides assistance to management and users regarding departmental connectivity as applied in their specific application requirements;
- b. Assesses user accounts, upgrades, removes and configures network devices, network security and software on database server;
- c. Performs network troubleshooting to isolate and diagnose problems while maintaining minimal system outages.

4. Responsibilities (Programming):

- a. Work with programmers and support staff to plan and design program code enhancements and changes.
- b. Create, test and maintain program code.
- c. Provide assistance to technical support staff to resolve a program, database, or IT issues.

- II. DEBIS Nig. Ltd., Ikeja - Lagos
Post: Coordinator, Software Department/Training
Period: September 1993 - March 1995
- III. JAROY Business and Computer Education Centre, Abeokuta
Post: Programmer/Instructor
Period: Jan. 1992 - Aug. 1992
- IV. Raw Materials Research and Development Council (RMRDC), Lagos
Duty: Industrial Attachment
Period: 3 months (1990)
- V. Ondo State Water Corporation, Akure
Post: Laboratory Technician
Period: July 1985 – November 1986

WORKING EXPERIENCE (Teaching)

- VI. Department of Computer Science, Federal University of Agriculture, Abeokuta, Nigeria
Post: Lecturer I
Period: April 2011 -2013
- VII. University of Agriculture, Centre for Human Resources and Development, Abeokuta
Post: Part-time lecturer
Period: August 2003 - 2007.
- VIII. Babcock University, Ilishan-Remo,
Post: Adjunct Senior Lecturer
Period: September 2001 till date
- IX. University of Agriculture, Science Laboratory Technologist Department, Abeokuta
Post: Part-time Lecturer
Period: September 1995 - October 2002

OTHER RESPONSIBILITIES INCLUDE:

- I. Reporting to the Head on matters relating to Computer.
- II. Generating Daily, weekly, monthly reports for Management.
- III. Carrying out detailed inspection of computer Hardware before acquisition and whenever necessary repair is required.
- IV. Administration of Network facilities, Internet and VSAT installation.
- V. Training of staff and other users on Computer appreciation.
- VI. Assisting on matters like Payroll, Annual Budget, Financial statement, stock reconciliation etc.
- VII. Developing in-house application programs.

- VIII. Planned and implemented full user web site and web enabled Content Management Systems (CMS).
- IX. Responding to and resolution of users problems
- X. Promoting software into production (live) environment and developing a test strategy.
